CHAPTER II.

HISTORICAL SKETCH.

Madura, the district most regular in shape in the Madras Presidency, lies inland, astride of latitude 10° north almost midway between sea and sea. On the east it marches with the districts of Trichinopoly and Ramnad and on the west with the mountainous country of Travancore. From these mountains derive the fructifying waters of the Periyar which flow eastwards through the great plain of Madura scattered about which,

> " Aloof amid the hum of husbandry
> Bald pated rocks and hills like tumbled towns
> Stand sentinel."

2. The district was at the heart of the Pandyan Kingdom which had existed there since the dawn of history. In the 14th century it was first shaken to its foundations by the invasion of Malik Kafur who sacked Madura and penetrated

as far as Rameswaram. In the following century the Nayakkans, nominal feudatories of Vijayanagar, finally extinguished it. Tirumala, the most famous of the new dynasty, built in Madura some of the finest buildings in South India. The Nayakkans administered their dominions through the agency of poligars, chiefs great and small, who were charged with the collection of the revenue, the maintenance of order within their borders and certain military duties without them. They collected an infinity of tolls on trade of every kind and levied a land tax on each village as a whole, based in amount on a theoretical division of the produce between the cultivator and the Government.

3. Chanda Sahib, uncle of the Nawab of Arcot, put an end to the Nayakkan dynasty in 1736. In the confusion which followed, the East India Company began to take a hand in the game and develop their authority in the district. To begin with they exercised control through the agency of the incompetent Mahfuz Khan, the brother of the Nawab, who rebelled in 1756. Haidar Ali invaded the district in 1757 and was with difficulty beaten off. The Company sent Muhammad Yusuf as Governor in 1759. An experienced soldier and an able administrator he soon reduced affairs to order. But in 1762 he in turn rebelled and after holding the city of Madura against a siege he was taken by treachery and hanged. He was followed by a succession of Mahometan officers of no special note. In 1781 the Nawab assigned the revenue of the Carnatic to the Company to defray the cost of the war with Haidar Ali and from this date the district was practically under direct British administration.

4. The Emperors of Vijayanagar had collected their dues from the district direct from the Nayakkan rulers. If the latter made default the Emperor sent an army to ravage the country. The Nayakkans collected their dues in turn from the practically independent poligars against whose oppressive exactions the cultivators had no remedy. Nor did the Mahometan rulers make any attempt to administer the collection of revenue so as to safeguard individual liberty. They employed renters, who were left to extract money from the ryots by the readiest means available. The British made their first essay in the province of Dindigul on its acquisition in 1792. The revenue was collected in some parts by poligars and in some parts by renters. The country was in disorder and the land revenue accounts had disappeared. Added to which these were the early days of the modern tradition of service and some of the early Collectors were not up to their work. It was not till 1799 that the successful conclusion of the Third Mysore War convinced the rebellious poligars of the power of the Company and awed them into good behaviour.

5. Mr. Hurdis, the Collector, then first undertook the systematic survey and assessment of each field. As the areas were worked over he rented them out on triennial leases with a view to making the settlement permanent at the end of the period. But the level of the assessment had been fixed too high. From 1805 onwards arrears of revenue began to accumulate and the renters and poligars became bankrupt. In 1808, therefore, Government instituted a special enquiry into the matter as a result of which they abandoned the idea of a permanent settlement and issued triennial leases. These failed in turn and gave place to a ryotwari settlement. The remainder of the Madura district was first surveyed in 1802 but not with the completeness and accuracy of the Dindigul division. The survey was followed by a defective settlement. The triennial leases were a failure here also and the system of settling with each individual ryot supervened in 1811. The existing survey of the whole district was begun in 1872 and completed in 1884 in which latter year the modern settlement was also completed and was introduced in 1889.

6. It may be said that the British revolutionized the methods both of assessing and collecting the land revenue. By fixing the assessment on wet lands in money instead of, as formerly, in kind, they introduced the element of fixity. The ryot no longer paid a proportion of his crop as land revenue. He now knew beforehand the fixed average sum which he had to pay and he was expected to save in a good year to enable him to pay his dues to Government in a bad one. The system was, of course, tempered—as it still is—by the grant of remissions.

The mode of collection has passed through the phases of collection by fire and sword and by the oppression of poligars and renters to the ryotwari system under which Government deal directly with each ryot. This system, about which the school of Cornwallis expressed so many apprehensions, was inaugurated by the logic of events before 1820 and has now held the field unchallenged for over a century. Capable of modification in detail, in its broad principles it is never likely to be seriously contested. It requires to implement it an administrative cadre physically active, mentally capable and free from all taint of corruption. It is, after the establishment of the Courts of Law, the greatest monument in India to the administrative genius of the British race.

CHAPTER V.

THE TABLE OF CONTENTS.

1. The table of contents is complete for each volume except for the omission of reminders and covering letters which are of no intrinsic importance.

2. Each paper is indicated by a main title in thick type and a subordinate title in ordinary type. The titles are usually abstract, but personal names are used where the matter is mainly one of personal interest or where the individual is one of special importance. Place names are used in the case of Zamindaris and certain other places where this arrangement is likely to assist the process of collating scattered references. For all papers of any length a precis is added to the titles.

3. The spelling found in the original volumes has generally been adopted. Abbreviations are sparingly used.

4. The key to the table of contents gives a list in alphabetical order of the main titles excepting those which consist of place or personal names. Most of the titles are grouped also in the main administrative classes to which they belong.

TABLE OF CONTENTS.

Vol. 1103.

1. Letters to the Board, etc.
1790—6.

Date.	Abstract.	Page number.
	Revenue Renting	
28-9-1790	Proposals for f. 1200. 1. Calcaud, Vidoogram and Shevel divisions may be rented out on the present terms in consideration of the unmerciful mode of collection during the last five years, although they are capable of yielding more. 2. *Kadayanallur farm.* Only one person has proposed to rent it. But as he happens to be a man of doubtful character, the Collector proposes taking it under amani.	1-6
18-10-90	————To the Board. The Collector transmits a statement of the proposals for renting the twenty-two divisions in the Tinnevelly district for f. 1200 and reports that the renters have declined to improve their terms, as they are saddled with heavy charges to be incurred on account of carrah peons, tank repairs and vattam. The revenue proposed by them is, however, equal to the rent of Mr. Irwin's third year, although a little short of the average value of the country.	7-29
	Revenue Arrears	
6-8-92	Statement. To the Board. The Collector transmits a statement of the sum paid by the renters on account of f. 1201 and of the balance still due from them. He proposes keeping their securities in confinement till the receipt of orders from the Board.	31-7
	Porto Novo Pagodas	
31-10-90	Fixed rate of exchange. To the Board. 1. The Collector considers it impracticable to make a settlement with the renters for the payment of their kists in Porto Novo pagodas at a fixed rate; for they are so very scarce in the district that the attempts of the renters to purchase them would only increase their rate of exchange. They have, moreover, so much fallen in value that it appears more to the advantage of the Company to take the chance of the bazaar rate than make a settlement with the renters. 2. He recommends the proposal of Mr. Irwin to coin pagodas as a measure to counteract the evil effects of an increase in their rate of exchange.	39-43
	Military Supplies	
29-11-90	Paddy and bullocks. To the Board. The Collector hopes to spare two thousand garce of paddy and two thousand carriage bullocks for the use of the army.	45-7
	Dutch	
27-11-90	Claims to exclusive navigation—Minute of Mr. Hugh Maxwell. Mr. Hugh Maxwell reports that the Dutch Company have assumed to themselves the exclusive privilege of navigating the Bay of Tuticorin and the Gulf of Manar and established an absolute monopoly of trade in the Tinnevelly district, although there is no specific clause to that effect in the treaty concluded between the Nabob and the Dutch Governor of Colombo in 1788 regarding the chank and pearl fisheries of Tuticorin and Manar. He thinks that the country would be reduced to a distressing condition, if steps are not immediately taken to free its trade.	49-52

Date.	Abstract.	Page number.
	Dutch—*cont.*	
31-12-90	To the Board. The Collector corroborates the above facts and adds that their claims to such privileges are doubtful and that they make a show of these fisheries to secure the more important object, namely, commerce. But he thinks that their advantages would not answer the expense of maintaining that monopoly.	53-6
	Poligars	
6-1-91	Tinnevelly—Settlement of peshcash. To the Board. The Collector reports that all the poligars in the Tinnevelly district have returned to their allegiance to the Company promising to restore all they plundered from the Government and the pollams they usurped, and that their peshcash has been settled in the manner prescribed by the Board. He brings to notice the dispute between Wurcar Devan and Chinnananja Devan about the succession to the pollam of Chokkampatti and recommends that the former may be made poligar in view of his services to the company in the late war.	56-63
	Judicial Administration	
23-4-91	Collector's proposals. To the Board. The Collector recommends that more severe punishments than common flogging and confinement may be inflicted in all cases of violation of persons and their property. He solicits definite instructions with regard to the administration of civil justice, which is at present done by arbitration in cases of dispute between individuals and with the help of the principal persons in matters of revenue.	65
	Brahmins of Darmasana	
24-4-91	Dispute with the Collector. To the Board. 1. As the result of a dispute with the Collector, the Brahmins of Darmasana instigated their ryots to desert their cultivation. He has, however, apprehended the ringleaders and requests that singular punishment may be inflicted on them. 2. The Board authorizes him accordingly.	67-9
	Irrigation Repairs	
10-5-91	Estimate. To the Board. 1. The Collector transmits an estimate for the repair of tanks, watercourses and anicuts. 2. The Board approves of it and directs advances to be made from the Company's treasury.	69-72
	Nawab's Administration	
10-5-91	Oppressive measures. 1. *Copper coinage.* The Nabob's manager buys up copper coins at 96 for a fanam and recoins and issues them again at 48 to a fanam. The Collector "rather than follow so disgraceful a custom" coined the cash at the usual time and issued it in the value of $\frac{3}{4}$ fanam expecting the remaining $\frac{1}{4}$ to cover the mint costs and compensate the customs renter whose perquisite the cash copper coinage is "on the present occasion, as well as in most others of an oppressive nature, the burthen is found to be but little felt by the rich, while the lower class are made to bear the whole weight".	71

Date.	Abstract.	Page number.
	Nawab's Administration—*cont.*	
	2. *Crop sharing.*	
	Another custom of the native rulers when paddy is shared between the ryot and Government is this. When the Government "proportion shall be more than can be easily sold" they divide the surplus grain in equal quantities upon every house in the village, forcing the inhabitants by these means to take it from them and at an advanced price. This tax is called 'guddoyem' and is most oppressive to the poor.	
	3. The Board approves the Collector's measures.	
	Sivaganga	
6-5-91	Expedition to—Remarks of the Hon'ble Court of Directors. They disapprove of the expedition into the Sivaganga district, as it only helped the Nabob to establish his authority in that country to the prejudice of the widow of the late poligar, for whose restoration, it was originally intended. They, therefore, desire that she and her family should immediately be liberated from the hands of the Nabob and restored to her Government and that Chinna Murda should be permitted to resume his former functions in that Government, under conditions that would ensure his fidelity to his mistress and the regular payment of tribute to the Nabob.	73-9
	Brahmins of Darmasana	
5-7-91	Dispute with the Collector.	81-4
	To the Board.	
	The Collector has abolished the collusive cowle under which the Brahmins have held the village of Darmasana and fixed on it the assessment originally settled by Etiabar Cawn.	
	Troops	
30-7-91	Collector's objections to removal of.	84-8
	To the Board.	
	1. The Collector deprecates the proposed reduction of the revenue troops in Tinnevelly, which are at present indispensable for the security of the revenue and to keep the numerous poligars neutral.	
	2. The Board resolves to recommend that they may be continued.	
	Revenue Renting	
1-8-91	Proposals for f. 1201.	89-93
	To the Board.	
	1. The Collector reports that in the proposals for the twenty-four farms of Tinnevelly, there is an increase, in the revenue, from 2½ to 3 per cent. He considers the offers for the Calcaud farm to be quite inadequate. He recommends that a manager may be appointed for the Sivakasi and Srivilliputtur farms in view of the confusion prevailing in those countries.	
	2. The Board makes its own selection of the offers for renting.	
	Revenue	
9-9-91	F. 1201.	93-100
	To the Board.	
	1. The Collector encloses the kistbundi of the Tinnevelly farms for f. 1201 and adds that the increase in the revenue is an evident sign of the rising prosperity of the country and an undeniable testimony of the benefits derived from the Company's Government. He has been able to recover a considerable part of the circar rights from the Brahmins of Darmasana without injury to the inhabitants and restricted the manager for the Nedumangalam and Sivakasi districts to the collection of a specific sum on account of surnadayam ordinary grain land.	

Date.	Abstract.	Page number.
	Revenue—*cont.*	
	2. The Board is satisfied with the increase in the rent and approves of the arrangements with regard to Nedumangalam and Sivakasi.	
	Poligars	
26-9-91	Tinnevelly district. In the recent war with Tippu Sultan, the poligars in Tinnevelly observed a distrustful and pilfering conduct towards the Company instead of actively supporting them with men and money, although they were less flagitious as compared with former tricks. Some of them have, however, relinquished their spoils of war. But most of them are still disobedient to the orders of the Collector. Although the arrival of two or three battalions would occasion peshcash to be paid and the plundered property to be restored, he considers that such an effect would be temporary. He, therefore, suggests, to be observed towards them, a conduct quite different from the one during the last war, pointing out that in the time of Yusuf Cawn, they were reduced to the condition of common inhabitants.	101-12
	Sivagiri	
19-6-92	Quarrel with Sattur. To the Board. 1. The Collector reports that the Poligar of Sivagiri made an attack on the Sattur Poligar, killed and took possession of his pollam for having conspired against him, although there were no evidences to prove the existence of such a conspiracy. 2. He takes this opportunity to bring to notice the cruelties perpetuated by the poligars on the inhabitants and recommends that in restoring the country to the Nabob, a force should be granted to re-establish his authority and restore the country to order and tranquillity.	113-21
	Treaty of 1792	
..	Between the Nabob of Arcot and the Hon'ble Company—Proposed modification. From Sir John Shore to the Nabob of Arcot. The Governor-General points out that the proposed modification of the treaty of 1792 contemplates nothing more than a delegation of control and superintendance over the Carnatic from the Nabob to the Company with a view to restore order and peace in the country and that the interests of the Nabob would be promoted rather than injured by it.	123-31
	———To the Governor-General in Council. The Madras Government communicate the refusal of the Nabob of Arcot in spite of his obligation to the Company to acquiesce in the modification of the treaty on the ground of his father's will and Lord Cornwallis's treaty and recommend insisting on the immediate liquidation of the new cavalry debt due from him. They look upon the possession of the fort of Chendragiri as important to the security of the Company's possessions and as necessary to achieve the object ordered to be pursued with regard to poligars.	135-8
8-4-96	——From Sir John Shore to the Governor of Fort St. George. The Governor-General considers the negotiations with the Nabob as having been hastily conducted and disapproves of the suggestion to demand the immediate liquidation of the cavalry debt, as it is an indirect mode of coercing the Nabob into an acquiescence. He promises to use his influence with him (the Nabob) to withdraw his troops from the fort of Chendragiri and to admit the British troops.	139-49

Date.	Abstract.	Page number.
	Treaty of 1792—*cont.*	
8-4-96	———From Sir John Shore to the Nabob of Arcot.	151-62
	The Governor-General gives up pressing the matter any further. He however assures the Nabob that, in proposing the modification of the treaty, the Madras Government have not been actuated by any feeling unfriendly to him and that consequently he is not justified in withholding his confidence from them. With respect to the issue of circular orders by them to the Rajahs of Kalahasti and Venkatagiri, he explains that the complete establishment of the authority of the Company in the internal management of the poligar districts, is in no respect incompatible with the rights of sovereignty reserved to him (the Nabob) by the treaty. He desires an early settlement of the cavalry debt and requests that his (Nabob's) troops may be withdrawn from the fort of Chendragiri and the British troops admitted into it.	
31-5-96	———Minute of Lord Hobart.	163-204
	Lord Hobart observes that the negotiations with the Nabob were not hastily conducted, but lasted for forty days and failed in the end owing to the Nabob who was anxious to conclude the business as early as possible. As the Nabob failed to pay the sum stipulated in the treaty for maintaining a Company's force, for the protection of the Carnatic, he does not consider it repugnant either to the laws of nations or to the principles of justice and morality to propose a compromise of that pecuniary obligation and to urge the payment of the debt or an acquiescence in the compromise. It appears to him that the definition given by the Governor-General to the nominal sovereignty of the Nabob over the poligars is inconsistent with the object of the Court of Directors to put an end to the difficulties arising from the Nabob's control over them and places the matter exactly in the same situation in which it stood previous to the receipt of their orders.	
11-7-96	———From the Bengal Government to the Court of Directors.	207-23
	There was a difference of opinion between the Supreme Government and the Madras Government as regards the negotiations with the Nabob for a modification of the treaty of 1792. The former assumed that as his rights were secured by a solemn treaty, the relinquishment of them might be conceded but could not be extorted and that therefore argument and conciliation should be employed for this purpose. The latter, on the other hand, exceeded these limitations, conducted the negotiations with a precipitation quite incompatible with any reasonable hope of success and failing in the attempt, suggested an indirect means of coercion. The Supreme Government now submit for consideration which of these principles is better calculated to promote the permanent interests of the Company. They, further, submit whether their interpretation of the orders of the Court of Directors as leaving the sovereignty of the Nabob over the poligars as it stood, is inconsistent with the measures ordered to be taken for an efficient internal management of the poligar districts.	
16-8-96	———From the Madras Government to the Court of Directors.	227-38
	The Madras Government report that the means employed by Lord Hobart in the negotiations were neither injudiciously chosen, precipitately entered upon, nor indelicately brought forward and that he would have succeeded in his object if the Nabob had not listened to the evil advice of his confidential servants. They repudiate the charge of breach of faith, as they did not carry into execution the proposition of their President without the Nabob's consent.

	To Government.	
	The Collector recommends the immediate appointment of a sufficient force to seize Vellaida Naik, the Poligar of Palni, for collecting troops in spite of the terms of the late proclamation and for other misdeeds.	

Date.	Abstract.	Page number.
	Cash Balance	
10–8–96	Disposal. To Government. The Board solicits instructions as to the disposal of the balance of cash in the hands of the Collector of Madura.	2
	Poligars	
28–9–96	Dispute between. To Government. The Board recommends that the claims of the poligars of Eriyodu and Kumarawadi to the village of Pudiwadi may be referred to the decision of arbitrators.	2–3
	Balasamudrum Fort	
29–11–96	To Government. The Board represents the necessity of placing a garrison in the fort of Balasamudrum which the Predani of Maider Nagar has seized after the apprehension of the poligar, through the neglect on the part of the Collector of proper precautions.	3
	Johnson, Mr. J.	
24–12–96	To Government. The Board solicits orders on the application of Mr. Johnson for a grant of the small piece of ground occupied by him at Dindigul.	4
	Poligars	
5–1–95	Sanads. To Government. The Board recommends that sunnuds stating the obligations under which they are permitted to enjoy their pollams may be issued to the several poligars in Dindigul so that they may perform their police duties more properly.	5
	Settlement	
29–1–95	Palaiyams in Dindigul. To Government. The Collector appears to have concluded a settlement with the poligars in Dindigul for the current year and issued sunnuds to them for the same peshcash they were paying in the two preceding years, without any authority and without awaiting the result of the references made by his predecessor on the subject. Although this settlement was made subject to the approval of Government, the Board considers that any alteration that may be made, would only create in the minds of the poligars, a distrust of all future agreements. It, therefore, recommends that the settlement may be confirmed. It cannot, however, help observing that the conduct of the Collector is very extraordinary and that his conclusions from statement are rather erroneous. It recommends that the sum deposited by the Minister of Virupakshi as a security for his good conduct may be credited in his account as part of the balance due from him.	6
	Cumbum and Gudalur	
18–2–95	Delivery to the Company. To Government. The Board reports that Kambam and Gudalur have been taken possession of and that the Collector has been called upon to submit a statement of loss of revenue incurred by the detention of these places by the Rajah of Travancore.	7
	Devadanappatti and Sandaiyur	
2–2–95	To Government. As Gopia Naik, the Poligar of Deodanapatti and Sandaiyur, is reported to be very refractory, the Board recommends that he may be immediately dispossessed of his palaiyams and one Nella Dadu allowed to succeed him.	7–8

Date.	Abstract.	Page number.
	Kanapadi	
2-5-95	Succession. To Government. There are two claimants to the palaiyam of Kanapadi. The one is Andiapa Naik, the eldest son of the late poligar and the other, the Poligar of Virupakshi. The latter is supported by the Collector on the plea of his being the nearest heir to Appia Naik who formerly possessed that palaiyam. But the Board objects to this recommendation as being made in favour of a refractory man and suggests that Andiapa Naik may be confirmed.	8
	Settlement	
21-3-96	Palaiyams in Dindigul. To Government. As the statements prepared by the Collector and his predecessor differ considerably in respect of the valuation of the several palaiyams in Dindigul, the Board finds it difficult to make any permanent settlement on them, and therefore recommends that it may be concluded on the same terms as in the last year.	9-11
	Ammayanayakkanur and Ayakkudi	
25-3-96	Unusual succession. To Government. According to the established usage in the palaiyam of Ammanaickanur, the line of succession is not from father to son, but devolves on the first cousin in the male line. The Collector, however, interprets the law as prohibiting minor sons from succeeding. But as the several poligars in Dindigul attest to the above usage, the Board recommends that Conia Naik may be confirmed, as being the nearest heir to the late poligar by that usage. It further recommends that Moodie Venkata Naik may be allowed to succeed the late poligar of Ayakkudi.	11-3
	Anmantapatti	
2-4-96	Grant to Lingam—Proposal. To Government. On the report of the Collector, stating that there was no such country as Aiyampulla and that the district of Balassamudram was evidently meant to be conferred on Lingam, and entering into a detail to prove the pernicious consequences likely to result from such a grant, a reference was ordered to be made to Capt. Oliver and it appears from his reply that he proposed the district of Anmantapatti to be granted to Lingam. But as it is considerably more than one-fifth of the Palni palaiyam, the Board now solicits the orders of Government on the subject.	13
	Palni	
14-5-96	Vellaida Naik. To Government. As the presence, in the district, of Vellaida Naik, the Poligar of Palni, is a source of impediment to the settlement of the Palni palaiyam the Board recommends him to be removed to Trichinopoly.	14
	Kombai	
24-5-96	To Government. 1. The Board reports the refusal of Appajee Goundan, the Poligar of Kombai, to surrender the village of Hanamantapatti which has been resumed from him, and his serious depredations in Cumbum, but recommends that no hostile measures should be taken against him as proposed by the Collector, until Mr. Stodart closes his enquiry into that matter.	14-22

Date.	Abstract.	Page number.
	Kombal—*cont.*	
	2. It appears, from the enquiry that the poligar considered himself to have been confirmed in the possession of the village of Hanamantapatti and the watching fees of Cumbum by the order of the Collector. But as it does not afford any information as to the sunnud said to have been granted and the money paid, the Board proposes to address Mr. Stodart for a further report.

4-11-92	Claims of Venkatapathi Naigue. To the Board. (See Reprint 173/6-7). 1. It appears that Venkatapathi Naigue does not possess a zamindar's right to the district of Dindigul. The Collector, however, proposes to have an enquiry made into the subject. Meanwhile the Naigue has absconded with the district accounts. 2. The district of Dindigul originally belonged to the Rajas of Madura and later on fell into the hands of the Mysore Government and was administered by Amildars appointed by that Government. A few years after, it was given as a jaghir to Meer Sahib and then to Syed Sahib who held it till 1790 when it fell into the hands of the Company.	18-22

	Revenue Collections	
1-8-94	Ff. 1199-203. To the Board. 1. The revenue from the circar villages in the Dindigul district for f. 1199, the year before it was subdued, and for ff. 1200—3, the years of the Company's administration, amounts to Ch. 1,02,067; 60,430-4-31/32; 57,652-8-11/16; 52,490-2-¼ and 50,469-9-5/8 respectively. The gradual decrease in the revenue since the Company took possession of the district is due to the restoration of certain villages claimed by poligars and of inams to temples and Brahmins, the depredations of the Kallars and the inroads of elephants, the seizure of Kambam and Gudalur by the Raja of Travancore and of Hanamantanpatti by Appajee Goundan, the neglect of necessary repairs of tanks and watercourses and the general reduction made in the assessment. The Assistant Collector brings to notice the exaction by renters, of nuzzers from head inhabitants and Brahmins and their gain from the difference between the bazaar and Company's rate of exchange of Star and Porto Novo pagodas and submits for consideration whether it would not be beneficial to settle with the renters and poligars to make their payments in pagodas at some exchange that may be fixed. He considers the assessment on dry and wet lands to be just and equitable, although Government suffer much loss on account of 40 per cent. being allowed as 'swathanthiram' in the latter case. He proposes reverting gradually to the system of Syed Sahib wherein 6¼ per cent. was allowed as 'swathanthiram.' 2. He further suggests the propriety of renting out the customs and urges the immediate necessity of fixing the rates at each chouki. 3. He thinks that the peshcash of the poligars is rather less than they ought to pay, but apprehends that it cannot be increased, without a sufficient force to enforce obedience and to protect the country.	47-74 102-15

	2. *Resumptions.*	
	He recommends the resumption of the villages of Ramanadapuram, Pittalaipatti, Polanattum and Alamarathuppatti from the poligars, as they do not possess any legal right to them.	
	He suggests the propriety of dispossessing Gopia Naick of his palaiyam of Devadanappatti and of making Ayakkudi dependent on the Company, in view of the family feuds that subsist between the Poligars of Ayakkudi and Palni.	
	3. *Maniams.*	
	He objects to the maniams of the Brahmins, but considers any attempt to reduce them to be dangerous and impolitic.	
	4. *Oppressions.*	
	He attributes the ruin of the villages of Andippatti and Kolapuram to the emigration of the inhabitants on account of the oppression of Syed Sahib.	
	5. *Legal titles.*	
	He reports that there are no records to ascertain with accuracy the legal right of the present holders of the palaiyams and particularizes the names of poligars who have incurred the displeasure of the Government.

	Settlement	
18-1-95	Palaiyams in Dindigul, f. 1204.	
	To the Board.	20-7
	As the palaiyams in Dindigul are assessed more than they ought to be according to the zamindari rate of assessment of 1/3 of the net collections, and as any attempt to increase it further would not be attended with success, unless military force were employed, the Collector concludes a settlement for the current fasli with the poligars at the present peshcash and grants sunnuds to them without any authority from the Board. He recommends that this settlement may be continued until a more satisfactory valuation can be obtained of the palaiyams. With regard to Devadanappatti, he has taken care to issue the sunnud in the name of the late poligar so as to prevent any future claim on the part of Gopia Naick. He strongly recommends that the sum deposited by the Poligar of Virupakshi for the good behaviour of his vakil may be credited to the account of the poligar.

30-1-95	Circar villages—Mortgage of cowles. To the Board. The Collector reports that almost all the renters of the circar villages have mortgaged their cowles, and points out that such conduct, if allowed to continue, would lead to the accumulation of debt and the consequent oppression of the ryots to such an extent as to reduce the country to poverty before the end of the five years. 	Cumbum, Gudalur, Puduppatti and Hanumantanpatti	
22-4-95	Description of. To the Board. [See Reprint 171/3-7].	59-

1. The average revenue collected from Cumbam, Goodelore, Pooddyputty and Hanamuntaputty during the last four faslis amounted to Ch. 5,160-1-12 per year and the largest sum collected in any one year was only Ch. 5405-9-0.

2. *Gudalur.*

It is situated 97 miles south of Dindigul, and watered by the Goodelore river. It contains 9,968 koolies of nunja land and 9,785 koolies of punja land. The soil is uncommonly good, but the dense forests and the high mountains that surround it render it very unhealthy. Hence its thin population. The forests are infested by wild animals which make great depredations on crops. There is a pass over the mountains into Travancore. The fort of Goodelore is weak and the pettah small.

3. *Cumbum.*

It is 8 miles north of Goodelore and watered by the Cumbum river. The fort is equally incapable of defence, but the pettah is larger, containing about 500 houses. It contains 480¼ chay of nunja and 11,752½ koolies of punja lands. The climate is healthy and the people more opulent than those at Goodelore. Here, too, there is a pass across the mountains into Cochin. Pepper vine is a native plant and may be rendered an article of revenue, by improving its cultivation.

4. *Puduppatti.*

It is 5 miles north of Cumbum. It is well watered and consists of 71. koolies of ground. The elephants continue their depredations, but in a much less degree than at Cumbum and Goodelore.

The Collector thinks that the revenue from these villages would be considerably increased, by cutting away the jungles and throwing more lands open for cultivation.

5. *Hanumantanpatti.*

This village appears to have been granted to the father of Appajee Goundan by Vadakengoor Raja of Cumbum. Owing to the exertion of Appajee Goundan, it is now in a high state of cultivation. The Collector recommends it to be added to his palaiyam of Combay and also to allow watching fees for these four villages.

	Bodinayakkanur	
24-4-95	Poliger's obstruction. The Collector reports the misbehaviour of the Poligar of Boidee Naignoor in having prevented him from entering his palaiyam and conducting his enquiries with regard to its real value.	78-

	Bodinayakkanur	
29-4-95	Poligar's misconduct. To the Board. The Collector does not see any prospect of the poligar atoning for his misconduct. He reports the encroachments made by the poligar on the lands of his neighbours and is of opinion that he is in no way related to the original family.	88-

8-11-95	——— To the Amildar of Cumbum.	94-5

	He reports of his misconduct and requests to be restored to his palaiyam.	
11-11-95	——— Succession.	103-10
	To the Board.	
	The Collector particularizes Vellaida Naick's acts of misconduct and doubts very much whether he will remain faithful to the Company even if he is restored. He requests the Board to reconsider the claims of Vyapuri Naick to the palaiyam. Should it still consider his claims inadmissible, he proposes Toppia Naick, the Poligar of Rettyumbaudy, as being the nearest heir in the male line.	
	Anyway, he considers it desirable to retain the palaiyam under amani for the present and recommends that the fort of Balasamudram be garrisoned with the Company's troops and the Predani arrested, as a preparatory step to a future settlement of the country.	
	He estimates its annual revenue at Ch. 41,000, independent of the tribute of Ch. 500 paid by the Poligar of Rettyembaddy.	
	Poligar Sanads

	Jaghir	
11-11-95	Lingam—Proposal. From the Board. (See Reprint **173**/3). It transmits a copy of a letter from Government, proposing to confer on one, Lingam, the district of Iyempulla as a jaghir for his services in the seizure of the Poligar of Palni, and desires the Collector to state whether there is any objection to the proposed measure.	120-2
18-11-95	————Lingam—Collector's objections. To the Board. (See Reprint **173**/4-5). The Board evidently means the district of Balasamudram to be conferred on Lingam; for there is no such district as Iyempulla. To grant so large a portion of the country is highly impolitic and prejudicial to the interests of the Company, apart from the loss of revenue. It would, particularly in the case of Lingam, create, in the minds of the poligars, an impression of the inefficiency of the Company's sepoys.	122-6
	Cochineal	
30-9-95	To the Governor in Council. (See Reprint **173**/2). 1. The Superintendent M. C. N. reports that cochineal insects have been sent to Ganjam, Masulipatam, Tiruppattur, Salem, Pondicherry and Negapatam to be spread over the coast. 2. The great abundance of the opuntia on many parts of the coast and the rapid increase of the insects induce him to suggest that Collectors may be authorized to pay a certain price for every pound of dried cochineal and in proportion to the size of the insects.	127-8
	Palni

	Star Pagodas	
24-11-95	Exchange. To the Board. The Collector is of opinion that the exchange of star pagodas as fixed by Mr. Macleod is very favourable to the Company. He objects to settling the rent in a coin not current in the district and recommends that it be settled in rupees at a fixed exchange as was done under the Moorish Government.	141-2
	Cash Indent	
24-11-95 26-11-95	From the Paymaster, Madura. He indents for Pag. 4,500. The Collector states his inability to comply with the indent.	142-3

For the remaining sum, the Poligar of Iagoody has been held responsible, as he holds the private property of Vellaida Naick. The Collector considers this proposal to be very advantageous and if it meets with the approval of the the Board, recommends it to be closed with immediately. In the event, however, of its deciding to retain Rettayambadi a separate palaiyam, he proposes a deduction of Ch. 5 to 800 from the rent.	57-9

	Misconduct	
23-5-96	Mr. Alexander Stodart.	30-7
	To the Board.	
	1. Mr. Alexander Stodart has in trying to incriminate others, lost sight of the most material part of the Collector's instructions; for he has not demanded the relinquishment of Hanumantanpatti or the watching fees of Kambam. The Collector is afraid that such conduct on the part of his Assistant is likely to uphold the poligar in his disobedience rather than effect any reform in his insolent behaviour.	
	2. He requests the Board to issue orders for the release of the renter of Uttamapalaiyam and his family.	
	Cash Remittance	
24-5-96	To the Paymaster, Madura.	38
	The Collector intimates that he will pay Pag. 5,000 to his agent.	

Date.	Abstract.	Page number.
	Misconduct	
26-5-96	Dubash. To the Board. The Collector accuses Venkatachalam of improper interference in the district, of being the cause of a very considerable loss of revenue to Government in consequence of his having negotiated certain loans with poligars and kept a Tahsildar at Eriyodu for collecting the revenue of the 12 villages and lastly of having proceeded to Kambam contrary to his (Collector's) express orders. But he declines to bring forward the proofs, inasmuch as the Board has ordered Venkatachalam to be released. He, however, demurs at the Board's giving protection to a native who has been demanded both by Civil and Military authorities.	41-6
	Kombai	
27-5-96	Poligar's watching-fees. To the Assistant Collector. The Collector authorizes him to admit, as witnesses, any persons belonging to the Poligar of Combay, in the enquiry respecting his watching-fees from Kambam.	46-7
	Palni	
27-5-96	Quinquennial lease. To the Board. The principal inhabitants of the palaiyam of Palni agree to rent their respective villages for a period of five years, but object to pay their kist in money, owing to a fall in the trade in grain. Although it is objectionable to receive rents in kind, the Collector considers their proposals to be very advantageous as securing an average net revenue of Ch. 32,621 annually, exclusive of Ayakkudi and Rettayambadi and as affording means for bringing the lands to their full value.	47-9
	Pillaiyarnattam and Pittalaipatti	
29-5-96	Resumption. To the Board. The Poligar of Nilakkottai has not produced any document to prove his claim to the villages of Pillaiyarnattam and Pittalaipatti. If Government decide to retain them, a remission of Ch. 800 must be made to the poligar. The palaiyam will not bear a higher assessment.	55-6

	Agriculture	
1-6-96	Outturn. To the Board. A chay of paddy land is computed to yield in a good year about 2,400 pacca seers and a kooly of dry land about 350 pacca seers of paddy. In respect to dry grain, it is impossible to speak with any degree of precision, as it depends upon the season and the species of grain planted.	61
	Eriyodu	
6-6-96	Arrears. To the Board. The Collector does not see any prospect of the Poligar of Yerreyadoo paying his tribute regularly so long as Venkatachalam's influence is allowed to predominate in that palaiyam.	65-6

Date.	Abstract.	Page number.
	Irrigation Repairs

21-6-96	Sandaiyur and Cumbum. To the Board. 1. *Sandaiyur* The head inhabitants refuse to become renters. Should they continue to decline, the Collector requests the orders of the Board whether the palaiyam may be advertised for rent. 2. *Cumbum.* He does not consider it advisable to offer it for rent, until some adjustment takes place, respecting Appajee Goundan. He was obliged to accept loans from soucars in discharge of the peshcash due from poligars for the current fasli.	80-2
	Cash Remittance	
22 6-96	To the Paymaster, Madura. The Collector intimates that he can advance St. Pag. 3,000 only.	82

	Poligars	
16-1-99	Control of. To the Board. In the weak state of the district, the Collector considers it necessary to call out together the armed peons of the several poligars with a view to anticipate any depredation on their part and at the same time to gain time for taking measures for the defence of the country. He, further, suggests that a powerful detachment of the army may be stationed on the frontier to frustrate any attempt on the part of the dispossessed poligars to regain their palaiyams.	5-8
	Tippu's Subjects

21-1-99	Poligar's conspiracy. To the Board. 1. A conspiracy is set afoot for establishing Vyapuri Naick as the Poligar of Palni, under the influence of Lokia Naick, whose aim is to create, in the minds of the poligars, a distrust in the acts and measures of Government. 2. Of the conspirators, Muthu Shervagar, the late Predani of Palni, is taking the leading part. The Collector considers it necessary to secure him, before his machination begins to take effect.	12-4

But the Collector considers it impolitic to return it to him, as it has been declared as sequestered for ever, although he is favourably impressed with the poligar's character. He, however, recommends a monthly pension of Rs. 100, to be granted to him.	16-22 37-8

	To the Board.	
	The Poligar of Virupakshi is, under the influence of Lokia Naick, making preparations to attack Idaiyakottai. In the weak state of the country, it is rather dangerous to oppose him. Permanent Settlement

22-8-99 Introduction. 153-4

To the Board.

No permanent system of revenue can, at present, be introduced in Dindigul, as it is liable to depredations from the scandalous want of order obtaining in the Madura district. An attempt might, however, be made in that direction by rendering the present jumma on the circar villages permanent under the head inhabitants, securing to each ryot under them his proprietary right to the soil.

5-9-99	——— Resumption proposals. To the Board. 1. The Collector recommends the immediate resumption of the palaiyam cf Cunniwaddy, as the poligar is not merely incorrigible, but has also fallen into arrears, although he has been less affected by the severity of the season than others. 2. He solicits instructions as to the line of conduct he should pursue towards the Poligar of Verapatchee who, though quiet since the late rebellion, deserves punishment for his active part in it and whose extirpation, he is convinced, is the only means of restoring order and peace in the country.	168–71

The depositions of his principal adherents disclose the atrocities committed by him. The Collector gives up the attempt to seize him until Maj. Bannerman moves westwards. In the meanwhile he proposes securing his father, the Poligar of Yellamoday, as an hostage and stationing a strong body of peons on the hills not only to prevent the parties returning but also to cause an early ingress into Veerapatchee and Cunniwaddy. He, further, suggests the opening of a road from Palni to Polattoor and Punnicaudoo as a check to further atrocities. 2. He transmits particulars of the depredations of Kallars, which he laments, are largely due to the mismanagement of the Nabob's people.	179–260

	Periyur	
19-2-99	Poligar's misconduct—Enquiry. To the Board. In his attempt to seize the juncan renter of Saupatoor with a party of sepoys, the Tahsildar of that place was attacked by the peons of the Poligar of Perycre, and the sepoys after having been disarmed, were treated with violence and contempt. If this affair had happened either with the approbation or knowledge of the poligar, the necessity of immediately crushing his rebellious spirit would be unquestionable. But as the Tahsildar was totally unwarranted in his attempt to seize the renter, and might have been the aggressor, the Collector has judged it proper to institute a full enquiry into the case and in the meanwhile demanded the poligar to restore the firelocks taken from the sepoys.	16-7 20-2
	Saptur	
19-2-99	Resumption—Notification. To the Tahsildar of Saptur. 	Dutch Civil Servants

He reports on the change he has effected in his establishment and on the measure taken for the internal security of the country. He proposes to remit the assessment on lands irrigated by wells, in order to mitigate the effects of the present famine.	32-41

	Revenue Collections	
8-4-99	Poligars of Tinnevelly. To the Board. With a view to incite the poligars of Tinnevelly to a greater punctuality in their payment of kists, the Collector proposes the levy of an interest at the rate of 5 per cent. for every day's delay. He reports that the Poligar of Pondalumcourchy has not yet made his appearance at the court with his kist, according to the promise he made to the committee.	51-3
	Cash Indent	
10-4-99	Complaint of the Paymaster of Madura. To the Board. The Collector refused to comply with the indent of the Paymaster at Madura for cash, as he was directed to hold the balance of cash in his treasury at the disposal of Government for the service of the Southern Division of the Army.	53-5

10-4-99	To Government. The Collector requests to be informed whether the demands of the Paymaster at Madura for cash or the expenditure of purchase and hire of the bullocks required by the Resident at Tanjore should be given preference, in case the cash in his treasury should prove insufficient to meet both the demands.	57

17-4-99	Poligar's hostility with the Kallars. To the Board. 1. A war is likely to break out between the Kallars of Melur and the Poligar of Nuttum in consequence of his having beheaded two of their leaders for excesses committed by them in his palaiyam. 2. The Collector considers this as a blessing in disguise, as it would not merely divert the attention of the Kallars from the Dindigul district, but also facilitate their final reduction to the Company, by terminating in their mutual weakness.	62-4

	Ramnad	
24-4-99	Military aid called for. To the O.C., Madura. The Collector requests a company of sepoys to protect the district of Palamurra from the attack of the adherents of the deposed Poligar of Ramnad.	69-70
25-4-99	——— Attacks on Mudukulattur, Abiramam and Koneri. To the Board. The Collector brings to its notice the attack made by a body of armed peons on the Taluk offices of Moodokulutore, Aberamum and Comery and remarks that these disturbances originated with the deposed Poligar of Ramnad. He is, however, adopting all possible means to prevent their spread. But if they assume a more serious aspect, he suggests the expediency of employing the peons of the Poligar of Shevagungah.	70-2
26-4-99	——— Communication with Poligar. To the O.C., Trichinopoly. The Collector desires him to prevent the Poligar of Ramnad, under his charge, from communicating with any other persons than his servants.	73
27-4-99	——— Attack on Mudukulattur, Abiramam and Koneri. To the Board. It appears from enquiry that the poligar has been deluded into this conduct by the incident of 1780 when the revolt of his inhabitants caused the restoration of his palaiyam. As many of his former servants still keep up a communication with him the Collector suggests his removal to some distant place. He has entertained two hundred peons more to seize the plunderers.	73-6
27-4-99	——— To Lt. Thomas Tichborne. The Collector desires him to join his peons at Moodooculatore and disperse the insurgents.	77-81
30-4-99	——— The Collector informs him that the numbers of the insurgents have increased, that Paumboo Naicken has gone in pursuit of them and that he will send a further reinforcement.	82-3
1-5-99	——— To the Board. The Collector reports the arrival of Lt. Tichborne with 200 men and his dispersion of a party of insurgents. He anticipates the early restoration of order from his rapid march.	84-6 89-90
2-5-99	——— To the Assistant Collector. As the conduct of the Amildar of Moodooculatore appears to be suspicious, the Collector deputes his Assistant to enquire into his proceedings, which he thinks will lead to a complete development of the whole affair.	87-9
	Cash Remittance

	Saptur	
5-5-99	Poligar's arrest—Proposal. To the Board. 1. Although the palaiyam of Sapatoor has been resumed from the renters on account of their mismanagement which involved it in arrears and confusion, no revenue can still be counted upon with certainty, so long as the country is exposed to the incursions of the deposed poligar and the Kallars and inhabitants intimidated to pay a part of the revenue to him. His surrender or seizure is, therefore, indispensably necessary to the security of future revenue and to the restoration of peace and order. 2. No doubt, the poligar would resign himself to the mercy of Government, if he were assured of personal protection and a subsistence. But such a compromise after the commission of so many enormities and after the public resentment having been so frequently declared against him, might shake the opinion of the public of the force and energy of Government. Upon this consideration, the Collector suggests the expediency of effecting his seizure by offering a considerable reward.	91-112
	Appanur and Chitrankudi	
5-5-99	Sharogar's misconduct. To Lt. Tichborne. The Collector suspects the Sha ogars of Chetrengoody and Arpanoor of being concerned in the disturbances, but defers enquiring into their conduct until the restoration of peace. In the meanwhile he proposes to retain their services so that they may not join the insurgents. He publishes a notification offering a reward of Ch. 500 for the apprehension of the principal insurgents.	113-9
	Military Operations	
6-5-99	To Lt. Tichborne. As the numbers of the insurgents are considerably reduced, it will be ineffectual to pursue them by parties and different routes.	119-21
	Poligars	
7-5-99	Interference with weavers. To the Commercial Resident at Palamcottah. The Collector requests him to be more specific in his complaints against any poligar for plundering weavers.	122
	Food-grain	
7-5-99	Conveyance. To the Collector at Mayavaram. The Collector reports that the owner of the sloop arranged for the conveyance of grain refuses to go any further than Mootopettah owing to a strong adverse current.	123-4
	Cash Remittance	
10-5-99	To the Resident at Tanjore. The Collector informs him that he will remit the sum he requires within a few days.	124-5
	Disturbances	
12-5-99	Mudukulattur, Abiramam and Comeri. To Lt. Tichborne. The Collector does not suspect the poligars of Ettiapoor and Naglapoor of being concerned in the disturbances, but considers it probable for some of the inhabitants of the palaiyams to join the insurgents from a prospect of plunder. Before such an evil could happen, the Collector requests him to adopt all possible means for crushing the rebellion without showing any leniency. He does not approve the suggestion of lodging provisions and ammunition in the fort of Comery, as the detachment is constantly in motion.	126-8

Date.	Abstract.	Page number.
	Cash Remittance	
7-5-99	To the Paymaster, Madura. The Collector informs him that he has ordered the Amildar at Pullamurra to remit St. Pag. 3,600 to him.	129
	Panjalamkurichi	
15-5-99	Poligar's peons—Misconduct. To the Board. The Collector reports that a party of peons belonging to the Pandaulumcoorchy Poligar entered the Kilkarra Taluk, behaved with much violence towards the inhabitants and treated the Company's authority with contempt and that he has called upon the poligar to explain the circumstances which brought them thither.	130-5
	Military Bills	
15-5-99	To the Resident at Tanjore. The Collector requests a bill upon Government for the amount of the cost of the bullocks supplied to the army.	136
	Disturbances	
17-5-99	To the O.C., Tinnevelly. The Collector requests him to proceed to Comeri with a reinforcement, as the insurgents have gathered much strength.	137-8 141-2
	Military Supplies	
18-5-99	Rice and ammunition—Storage. To Lt. Tichborne. The Collector considers it safer to store the ammunition at Ramnad and to keep a sufficient quantity of rice at Aberaumum, Moodoocalattore and Comery.	138-40 143-4
	Periyur	
22-5-99	Poligar's misconduct—Enquiry. To the Board. The Collector proposes to terminate the enquiry into the attack made by the peons of the Poligar of Periyore on the Tahsildar of Sattur, as he could not ascertain whether the poligar was concerned in it. He, however, recommends corporal punishment to be inflicted on the peons. He transmits translations of further depositions regarding the insolent violence of the peons of Paudalumcourchy in the Kilkarray Taluk.	145-57
	March	
25-5-99	Detachment to Comeri. To Lt. Turner. The Collector suggests a route to Comery, which is quite secure from the depredations of the bandits.	159-60 164-5
	Disturbances	
25-5-99	Mudukulattur, etc. To the Board. The Collector brings to its notice the attack made by the insurgents on his house and on the party of peons carrying the kist money from Sheveghcrry to Ramnad and remarks that they are becoming more formidable, joined by the peons of the Poligars of Pandalumcourchy and Naglapore. He further reports that the Poligar of Shevaganga has sent a large force to his help.	160-3
	Cash Remittance	
2-6-99	To the Paymaster, Madura. The Collector advises the remittance of St. Pag. 2,750-18-0.	165-6

Date.	Abstract.	Page number.
	Panjalamkurichi	
2-6-99	Poligar's misconduct. To the O.C., Ramnad. The Collector requests him to apprise the Poligar of Pandalumcourchy of the impropriety of his conduct in having entered the Pulimarra Taluk with a large force for the ostensible purpose of proceeding to Shevaganga, as his presence in the district at this critical period would tend to revive the hopes of the disaffected and retard, if not entirely frustrate, all efforts to restore peace.	166-9
	Troops	
6-6-99	Allotment of. To the O.C., Ramnad. As the rebellion has been entirely suppressed, there is no necessity for the O.C. to remain in the district with his detachment. The force he proposes to leave under Lt. Tichborne is quite sufficient to protect the country.	172
	Panjalamkurichi and Nagalapuram	
7-6-99	Poligars' misconduct. To the Board. 1. The Collector has ordered the Poligar of Pandalumcourchy back to his palaiyam without giving him the audience he solicited, as he insisted upon his being attended by the whole of his force at the cutcherry. He suspects a combination between him and the Poligar of Naglapore and believes that they would have joined the recent rebellion, had it not been brought to a successful issue. In regard to the latter, he brings to the notice of the Board his depredations in the villages of Arrapoocottah and Gopalapuram under the pretence of levying the caval fees, the collection of which was discontinued for some time. 2. He remarks that the southern poligars are, in general, very insolent and refractory and that no regularity in the payment of kists or anything approaching a good government can be expected from them, unless some of the measures he suggested are carried into execution. They should not, however, be attempted, until a strong force is collected.	173-92
	Military Bills	
10-6-99	To the Paymaster, Tinnevelly and Madura. The Collector transmits a bill of exchange drawn upon the agent at Palamcottah.	191

12-6-99	Reduction. To the O.C., Srivilliputtur. The Collector requests him to reduce the detachment stationed at Sapatoor, if its retention causes him much inconvenience.	193
	Military Guards	
12-6-99	To the O.C., Tinnevelly. The Collector requests a guard to relieve the party from the O.C. of Srivilliputtur.	93-4

	To the Board.	
	1. The Board has directed to be published a general order that no poligar would be allowed to attend the Collector's office with more than thirty followers. But the Collector is not sure whether this order restricts the number at the time of the poligar's attendance at the Collector's office or at the time of his passing the boundary of his palaiyam.	
	2. If former, his parade through the country with a large force would cherish his spirit of insolence detrimental to the peace of the country and if latter, it would be pleaded as an excuse for disobeying the summons, as the poligars are at enmity with each other. Upon these considerations the Collector suggests that the order may not be published.

	Virupakshi	
16-10-99	Poligar's pardon objected to.	195-200
	To the Board.	
	The Collector objects to the Board's proposal to pardon the Poligar of Veerapatchee in the face of positive evidences of his complicity in the recent rebellion and remarks that it would only make him intrigue the more against Government, even though he is now, surrounded by the Company's territory.	
	Settlement	
3-11-99	Andippatti—F. 1209.	211-9
	The palaiyam of Andipatty is settled at Ch. 2,578-3-4 for fasli 1209, with reference to the standard beriz of the Keelook year (1788-9). The assessment is fixed on each village and left to be divided by the inhabitants amongst themselves. After this division, each ryot will be given a cowle and confirmed in the possession of his land. The Collector recommends that this settlement may be kept up, even if the palaiyam should be restored to the young poligar.

	Virupakshi and Kannivadi	
12-11-99	Poligars' attendance at the Collector's office. There is no probability of the poligars of Veerapatchee and Cunnivady attending the Collector's office, if summoned, owing to a consciousness of their complicity in the recent rebellion being known to the Collector. The former has, indeed, disobeyed such summons and the latter cannot be brought to a better sense of his duty so long as he remains under the influence of Muthu Shervagar.	223-38
	Settlement	
15-11-99	Conquered taluks in Coimbatore—F. 1208. To the Board. In the absence of accounts showing the real value of the conquered taluks in the Coimbatore district, the Collector had to assume the beriz of the Sultan to be the standard. But as it had never been realized, he reduced it by one-fourth and fixed the remainder of Ch. 7,47,045-5-0 as the jumma for fasli 1208. Three-fourths of this sum he thought it proper to admit to the credit of the ryots on account of the collections made by the enemy in the same fasli. In the process of settlement, however, a further deduction of Ch. 51,446-9-11 was found to be necessary owing to the extreme severity of the season and the unsettled state of the country. So the balance now due from these taluks after this deduction amounts to Ch. 1,26,125-7-4⅕.	243-85
	Sivaganga	
20-11-99	Poligar's misconduct. To the Assistant to the Collector of Ramnad. The Assistant Collector requests him to order the Poligar of Shevagunga not to interfere in the affairs of the Nuttam palaiyam as he has lately done in the succession.	289-91
	Nattam and Ramagiri	
21-11-99	Management—Proposals. To the Board. The Collector proposes to keep the palaiyam of Nuttum under his management pending the adjustment of a dispute about the succession. He suggests whether it may not be proper for Government to become the guardian of the minor son of the late Poligar of Ramgherry.	297-313
	Military Supplies	
3-12-99	Grain. To the Commissary, Trichinopoly. The Collector requests him to order his accountant at Erode to take charge of the remaining quantity of grain.	319-22
	Ramagiri	
30-12-99	Succession. To the Board. The widows of Swamy Naick petition that their evidence in the recent enquiry into the succession to the palaiyam of Ramgherry was not rightly represented and that an investigation may be made into the means by which Chera Naick, the late Predani, acquired the palaiyam for his son, Vattala Naick, in preference to Vajjra Thambi, their adopted son. From the reports of the conduct of the Predani, the Collector suspects that he must have, in his desire to aggrandize his family, used all his delegated powers to suppress or mutilate some of the very material evidences in the case; and his suspicions are confirmed by the deposition of Syed Ameen, the Akbar Navaez at Manapara, on the transactions that took place between the Predani and Mr. Gepp who conducted the enquiry. He, therefore, suggests that a fresh enquiry may be made into the subject either by a committee or by his Assistant.	337-86

	Kaval Fees	
3-1-00	Resumption from poligars. To the Board.	15–8
	1. It is one of the resolutions of Government that desha caval fees should be resumed from poligars so as to prevent them from interfering in the Company's territory.	
	2. Naturally the question arises whether the resumption extends also to those villages which they have usurped from Government and which lie not infrequently in the midst of the Government villages.	
	3. Although the poligars could not substantiate their claims to those villages, yet considering the material diminution of their resources by the other proposed resumptions and the intention of Government to form a permanent settlement with them, the Collector does not wish to disturb them in their possession, but on the other hand proposes to assure them of the Company's protection of all the possessions they held when the country came into the hands of the Company.	
22-1-00	——— To the Board. The Collector reports that the poligars of Shovagherry, Eteapoor, Wootmally, Chocumputty, etc., have all acquiesced in the proposed resumption of their caval fees.	18–29 37–44
	Settlement	
30-1-00	Tinnevelly palaiyams. To the Board.	30–4
	1. The poligars having been relieved from all military service and police duties, the Company may proceed to assess them on the zamindari principle of permanent settlement. But such a course is questionable under the present circumstances, for the recent measures of reform launched against them have already created, in their mind, a suspicion that their entire removal is the ultimate intention of Government, whilst considerations of their conduct and situation demand an indulgence to be shown to them. These motives of policy and moderation induce the Collector to fix a moderate assessment on them for the current year.	
	Sattur	
30-1-00	Restoration proposals. To the Board.	34–7
	The Collector considers to be fair the estimate formed by Mr. Harris of the value of the Shatoor palaiyam and proposes to advance Ch. 2,380-5-0 for the repair of the tanks, as upon it, depends the realization of the increased peshcash and the balance outstanding. He recommends Sundara Pandia Tevan to be appointed as the manager of the palaiyam during the minority of the poligar.	
	Jamabandi	
1-3-00	Report. To the Board.	44–6
	The settlement for the current year amounts to St. Pag. 1,52,000, being 10 per cent. more than the nominal engagements for faslis 1207-8, in spite of the low rate at which the Government share of the crop is commuted into money.

	Nabob's Subjects	
20-3-00	Protection of.	46-9

To the Board.

1. The inhabitants of the Nabob's villages in Tinnevelly under the Company's caval seek the protection of the Company from the oppression of the Nabob's servants and the injustice of the mortgagees of his grain.

2. As this tyranny would, if allowed to continue, defeat one of the beneficial views which dictated the resumption of the desha caval fees from the poligars and lead to a rapid depopulation of the country, the Collector suggests whether it may not be proper to exercise the power which the poligars were won't to do, of protecting the inhabitants under their caval, thereby saving the resources of the country assigned for the support of the military establishment and now specially pledged to the Company for the expense of police.

	Talum Kavalgars	
1-5-00	Restoration proposals.	49-60

To the Board.

1. As the poligars have been completely crushed, the Collector does not apprehend any further interference in the watching service. He, therefore, proposes restoring talum cavalgars to their ancient ties and privileges, receiving their russooms immediately from the servants employed in the collection of desha caval fees and responsible exclusively to the Company for their conduct. He also issues a notification softening the animosities subsisting between the inhabitants and the cavalgars and pointing out the benefits likely to accrue from the latter's service.

2. He reports that the poligars of Shevegherry, Ettiaporam, Wootmalay, and Chokumputty have agreed to the settlement for the present fasli, after some hesitation.

	Poligars	
20-8-99	History of.	61-83

To the Board. (See Reprint **245/1-7**.)

1. Mr. Lushington, the Collector, reports to the Board on the origin, present condition of the poligars, and the situation in which they require to be placed.

2. *Origin.*

   Mr. Powney says, "The Tinnevelly poligars were originally independent chieftains whose possessions were confined to the hills and mountains occasionally levying contributions upon the low countries but possessing no part of them." Such of those head chieftains, as were men of ability or ambition, easily acquired considerable influence, and by retaining parties of peons came to be considered active sherogars. In this character, they assumed the name of poligar, or "the chief of a camp" and not "the proprietor of a country." Their origin does not carry back the oldest of them to more than 380 years ago; many of them are believed to be of Tirumal Naick's creation (160 years back). The pretensions which the poligars advance to their present lands have little foundation. They were created about 300 years ago, by the policy of the Hindu Government, for the protection of the country and the support of the sovereign. In the time of Tirumal Naick, 160 years ago, they had not degenerated from the original purpose of their institution.

Poligars—*cont.*

3. *Present situation.*

Besides the resources which the poligars drew from their pollam lands, and those they had usurped from the Circar, they derived a considerable revenue from the fees which they levied on the inhabitants of the low lands as watchers of the villages. These were the talum caval or village watching and the desha caval or district watching. The former consisted of ancient fees established from time immemorial and the latter was an arbitrary exaction by the poligars of later years, viz., from A.D. 1720 to 1731. The collection was made in the most oppressive manner, by parties of armed peons.

4. The principal cause of their turbulence is the assumed power and state set up by these people. Their insolent tyranny in the absence of authority is as proverbial as their treacherous intrigue in the presence of it.

5. *The situation to which they ought to be reduced.*

The poligars are at this moment the scourge of the country and the enemies of all legitimate government. The first step is the punishment of those who during the period of hostility remained contumacious. The next measure should be the demolition of all the forts in their country, the removal of their old guns and stores and a formal requisition to deliver up all their firearms at a given price, under pain of treating as rebels.

6. The next question is the increase of their peshcash. But until the extent of their usurpations and resources have been accurately investigated, no permanent increase can be fixed. It is therefore advisable to form a temporary settlement, which will be open to future consideration and correction.

7. For the accomplishment of all these objects, a strong detachment must be called into the field.

Settlement Report

28-5-02 To the Board. 84-112

(Duplicate of 3580/147-78.)

Permanent Settlement

30-9-02 Ramnad, Sivaganga and Tinnevelly palaiyams. 117-54

To the Special Commission.

1. *Ramnad.*

This zamindari is permanently settled at St. Pag. 94,733, being two-thirds of its gross receipts during the past six years and exceeding by 50 per cent. the peshkash paid by the former zamindars. This jama cannot be increased any further owing to the extraordinary uncertainty of the seasons. Allowances to the poligar and his family should be paid by the Company so long as they collect the sayer and by the Rani after its abolition.

2. *Sivaganga.*

The jama of this zamindari is fixed at St. Pag. 75,000 exceeding two-thirds of the peshkash of Ramnad, in spite of the material disadvantages it suffers from. This increase is probably due to the want of accounts showing the real value of the country and may, therefore, be corrected by leasing the country for a period of five or ten years. But such a course appears to be objectionable as giving room to intrigue and alarm, and after all the proposed settlement is only an increase of 50 per cent. in the revenue derived from this country since it came into the hands of the Company.

P manent Settlement—*cont.*

3. *Tinnevelly palaiyams.*

(*a*) The peshkash of the small palaiyams of Nadavacoorchy, Maniachy, etc., surrendered to the management of the Collector may be fixed a little lower than what was formerly recommended, in consideration of their peculiar situation.

(*b*) The villages resumed from the poligars of Wooreaud and Singamputty may be restored to them and included in the permanent settlement of their palaiyams.

(c) *Avadiapoor and Manarcottah.*

These are settled at St. Pag. 1,000 and 1,488–13–16 respectively, after deducting 10 per cent. from the gross receipts for the expense of management.

(*d*) *Sattur.*

A deduction is recommended in the price of grain at which the resources of this palaiyam have been valued by Mr. Harris.

(*e*) *Sapatur.*

This palaiyam may be restored to Warra Kamia Naick on the zamindari tenure, in view of its peculiar disadvantages for amani management, its mountainous situation and the unhealthy nature of the lands. The jama fixed upon it amounts to St. Pag. 2,582.

(*f*) *Sequestered palaiyams.*

The lands of Panjalumcoorchy are proposed to be distributed between the poligars of Etiapoor and Maniachy and those of Caudulgoody and Colatoor transferred to the Poligar of Mailmandeh as a reward for their fidelity and service in the late rebellion. The other sequestered palaiyams of Naglapoor, Yellarumpunny and Colarputty are settled permanently after deducting 25 per cent. from the gross jama hitherto realized by the Company.

(*g*) The rest of the palaiyams in Tinnevelly are likewise settled on the zamindari principle of assessment.

30-1-00 Succession. 15-9

To the Board.

It appears from further enquiries that there are no legitimate relations of the late Poligar of Nattum, unless the family of Muthu Lingam Naick be determined to be so from their own account. Shokien who is of an illegitimate origin cannot succeed to the palaiyam as a matter of right, although such succession was allowed during the time of Yusuf Khan as a matter of policy.

	To the Board.	
	1. The palaiyam of Nattum is settled at Ch. 22,145-9-12, being considerably lower than what might be expected from its rich soil. The reason for this decrease in revenue is the desolation caused by Chinna Murdoo and the total insecurity of every description of property from the excesses of the Kallars of Melur.	
	2. The inam villages are separately settled at Ch. 1,702-1-9, particularly with a view to ascertain the value of the lands given to the families of the late poligar and Shokien for their subsistence. It is suggested that these lands may be included in the final jamabandi and the incumbents paid a fixed allowance chargeable on the palaiyam.	
	3. There is no prospect of an increase in the revenue for fasli 1210, unless effectual restraint is placed on the Kallars and Chinna Murdoo.

The hill-fort of Shakragherry is exceedingly strong and inaccessible. Even if this were to be demolished the hill would still continue to be an asylum to any disaffected party. 2. 	The Collector has crushed two of the rebel parties that have issued from Veerapatchee. He thinks that the poligar of this palaiyam is the chief instigator of this rebellion and that his existence is an impediment to the restoration of peace in the country.	
13-6-00	——— To the Board.	93-5

	Deshacaval Fees	
7-10-00	F. 1209—Collection. To the Board. 1. The deshacaval fees for fasli 1209 amounted to Ch. 1,07,603-2-18 and the charges of collection to Ch. 22,563-7-39. The Collector points out that although the deshacaval has been surrendered to the Nabob, the Company is still justified in receiving these fees for the maintenance of an extra force in Tinnevelly, on the ground that they were originally meant as a remuneration to the poligars for military service. 2. He briefly describes the measures he had in view, of reforming the cavalgars and making them directly responsible to the Company.	278-87

15-10-00	Cattle. To the Commissary, Ceylon. The Collector finds it difficult to procure eight hundred cattle before the end of this month. As the report of Maj. ..	Interference with the merchants. To the Phouzdar of Tinnevelly. 1. The Collector is not satisfied with the enquiry made into the case and warns him against further acts of oppression towards them, as they have become the Company's subjects.	305-11

	Jamabandi	
29-12-00	F. 1209. To the Board. 1. *Ramnad.* The season was favourable. The settlement was concluded with the inhabitants of each village, holding themselves jointly and severally responsible for the rent. The total jama was 40 per cent. more than the average of former years, independent of the advantages of a grain rent to the ryots. The rate of assessment was 50 per cent. on nunja lands and 66⅔ per cent. on waram punja land, after deducting the charitable and other allowances from the gross produce. That on pudgee punja lands varied with each taluk according to the fertility of the soil. 2. The Collector proposes improving the office of karnam by restoring it to the ancient holders or their representatives with the mauniams attached to it. He encloses a historical account of the Ramnad Zamindari and an estimate of the tank repairs and requests permission to investigate the revenues of the temple at Rameswaram. 3. Sequestered palaiyams. (Paras. 53 to 107 of this report are reprinted).	329-420
	Sequestered Pollams	
29-12-00	Extract from Mr. Lushington's report. (See Reprint 245/8-20.) 1. It is more than a year since the pollams of Panjalemcourchy, Colatore, Nagalapore, Cadulgoody, Yellarumpanny and Colarputty were forfeited by rebellion to the Company and placed under the immediate management of the Collector. The records of the station did not afford the smallest information of the state of the pollams. It had become a fixed policy of the poligars to conceal, and give a false colouring to the internal concerns of their pollams. The source of information was directed to the collection of the old accounts. 2. *Survey and assessment.* The Collector directed the making of as accurate a survey as possible of the extent and state of the lands and of the actual cultivation of the year postponing until its completion his final settlement of accounts with the inhabitants. A special comparision of the rates of teerwa in other countries upon dry grain land showed that those at first proposed for the sequestered pollams were too high; but, after a minute examination of the actual cultivation of the year, it was found that the gain by measurement was a source from which great concessions might be made to the inhabitants in the rate of tax, still reanzing the full amount of the estimate formed for the several pollams. Though the rates of tax are so much lower than those at first proposed, they ought never to be increased beyond the scale. No measure can tend so directly to the cultivation, population and general prosperity as to make the husbandman perfectly easy, and the temporary reduction of a few thousand chuckrums should receive little consideration. 3. *Jama—F.* 1209. The total amount of jummah is Ch. 1,33,562-4-33. The net revenue is Ch. 1,10,404-6-7½. Peshcash of sequestered pollams is Ch. 38,608-0-0. Net surplus, Ch. 71,796-6-7½. The total estimated jummah for f. 1210 is Ch. 1,26 261-3-39.	351-81

	Panjalamkurichi Fort	
23-2-01	Poligar's interference. To the Board. 1. There does not appear to be a disposition amongst any of the poligars to join in this rebellion. 2. The walls of the new fort of Panjalamkurichi have been raised to a man's height and about 2,000 men with 350 Europe and country firearms are in the fort. Kumarasawmy Nattan is in charge of the fort. The poligar has collected all the taxes for the year. 3. The Collector informs the Board about the fortifications and garrison of the fort of Panjalamkurichi and the various methods adopted to procure arms and military supplies. 4. 	Accounts	
25-2-01	Delay in transmission.	43-5
	To the Accountant-General.	
	The delay in the transmission of his accounts was due to the breaking forth of a rebellion suddenly. The communications with several cutcheries were interrupted. Under the circumstances which necessitated the presence of the Collector at that place because of the cash chests, the accounts could not have been sent earlier. The delay of six or seven days is itself a proof of the attention paid by the Collector to his duties.	
	Kinlock, Mr. P.	
13-2-01	Language proficiency.	45-6
	From the Board to the Collector of Ramnad.	
	The Collector reported to the Board regarding the progress made by Mr. Kinlock, the second Assistant, in the acquirement of the Malabar language and Government observed with extreme pleasure the great progress made by Mr. Kinlock in the study of the country languages.	
	Pearl Fisheries	
26-2-01	Arippo.	46
	To the Superintendent at Arippo.	
	Jadi Talaiven, the Chief of the Parawars, has been warned to assist in the pearl fishery at Arippo and to give, in his own person, an example of obedience and order to the people of his caste. Any irregularities will be punished on the spot.	
	Cattle	
27-2-01	For Ceylon.	47-8
	To the Governor of Ceylon.	
	A considerable number of cattle have arrived from Dindigul. The extreme barrenness of Ramnad during the hot months makes it very desirable that the cattle should be transported as soon as possible to Manar. As some of the boats at Arippo will not be required for pearl fishing, they may be engaged for transporting cattle, unless the Superintendent of the Fishery thinks otherwise.	
	Bills	
28-2-01	To the Sub-Treasurer.	49
	The Collector has drawn upon the Sub-Treasurer a bill in favour of the Trustees of the Civil Fund for St. Pag. 37.

	To the O.C., Tinnevelly.

	2. The records established that the entire charge of the prisoners was committed to the Officer Commanding.	
	3. Instructions regarding the demolition of the forts in the sequestered palaiyams were not given by the Collector.

	Poligars	
3-3-01	Escape from custody—Explanation. To the O.C., Tinnevelly. 1. There was not the slightest interference on the Collector's part either in regard to the mode of confinement, the degree of restraint, the intercourse with them from without, the number of servants who attended them, the communications they received, or in any other respect whatever. 2. The destruction of the forts throughout Tinnevelly was confided exclusively to Maj. Bannerman.	53-5

5-3-01	Requisition. To the O.C., Madura. Circumstances have occurred since the despatch of his application to Maj. Macaulay which render the expediency of this measure yet more urgent.	73
	Poligars	
8-3-01	Arms and ammunition. To the O.C., Tinnevelly. It appears very expedient that the denunciation against the furnishing of arms, etc., to the rebels of Panjalamkurichi should be extended to the provinces of Ramnad, Sivagiri and the palaiyams of Madura.	74
	Comeri Fort	
8-3-01	Occupation. To the O.C., Tinnevelly. Adequate measures have been taken for the safe occupation of the fort and strong steps taken to stop the incursions into neighbouring villages.	75

	Milapen	
8-3-01	Rebel.	76-7
	To the O.C., Tinnevelly.	
	To expel the freebooter Milapen, from the province of Ramnad, is of such importance to the revenue during the present and future months of collection that it appears expedient to order the immediate return of Lt. Miller and his party from Nagalapuram to Comery.	
8-3-01	——— To the O.C., Nagalapuram.	77-8
	Maj. Macaulay has been requested to relieve the O.C. by such detail of troops as he may deem adequate for its security.	
8-3-01	——— Reward for apprehension.	78

	Comeri Fort	
11-3-01	Defence of.	80
	To the Board.	
	1. The Collector transmits copies of letters to and replies from Maj. Macaulay and Lt. Miller relative to Milapen.	
	2. Milapen has occupied the jungle which he did on a previous occasion as it has the advantage of being on the border of Sivaganga.	
	Military Bills	
15-3-01	To Mr. Thursby.	80-1
	In the present troubled state of the districts it is expedient to avoid the remittance of specie. For the guard of the service, the desire of the O.C., should be considered and the vouchers should be examined.	
	Poligars	
13-3-01	Escape.	81
	To the O.C., Palamcottah.	
	The O.C. is requested to state from any documents in his possession the nature and mode of every communication which passed between them relative to the poligar prisoners confined in the fort of Palamcottah and who were rescued from thence on 2nd February 1801.

	To the Board.	
	1. Lt. Miller was successful in dislodging Milapen and a part of his adherents from their strong position in the jungle.	
	2. That Milapen was provided with men and arms from the Sivaganga country is confirmed and he has taken refuge there. The Sherogar of Sivaganga will be asked to deliver him up.	

Date.	Abstract.	Page number.
	Milapen—*cont*	
14-3-01	——— To the Sherogar of Sivaganga. The seizure and surrender of the rebel Milapen and his adherents is demanded upon pain of the heaviest displeasure of Government.	82
15-3-01	——— To the O.C., Marawa Battallion. As the power of punishing with death can in no case be exercised without the especial sanction of Government, in future no measures of severity against the prisoners must be used.	82-3
	Bills	
16-3-01	To the Board.	83-4
	Kavalgars	
16-3-01	Misconduct. To the Fouzdar, Tinnevelly. 1. The authority of the poligars over the cawalgars was established in the most arbitrary manner. The description of the habits of the cawalgars is falsified by the experience of the last 50 years in the Tinnevelly province, by the general evidence of the people, by the records of the Nabob's government and especially by their conduct at the present moment. 2. Unless the strictest justice be done to the cawalgars by paying their russoom with good faith and regularity and unless their licentious character be restrained by the just exercise of a firm authority, they will always become instruments in the hands of the poligars of secret depredation or of open rebellion.	84-7
	Misconduct	
17-3-01	Fouzdar, Mucktar Jung. To the Board. The offensive conduct of the fouzdar is very repugnant and his insolence casts a reproach upon the person holding the authority of the Company and ought not to pass unnoticed.	88
	Milapen's Family	
18-3-01	Capture of. To the O.C., Ramnad. Certain individuals belonging to the family of Milapen have been seized and as these have renounced all connection with him, the peshkar is desired to report whether there are any grounds of suspicion against them. If not they may be released.	89
	Prisoners' Escort	
19-3-01	To the O.C., Palamcottah. Pandia Pillai and Muthu Pillai are sent for safe custody.	89
	Poligars	
20-3-01	Escape. To the Board. 1. Maj. Macaulay had put in irons one of the prisoners without any reference to the Collector, thereby plainly indicating that he had himself the fullest conviction of his sole and complete authority to adopt whatever measures he might deem necessary for their due custody. 2. The acknowledged effect of all interference on the part of the Collector was that the prisoners were better guarded for a few days than they had been before or since. 3. After the precedent established by Maj. Macaulay no doubt ought to have existed in the mind of the O.C., Palamcottah, of his full and exclusive competency to regulate the mode and degree of confinement over the poligar prisoners.	90-1
	Treasure Escort	
21-3-01	To the O.C., Palamcottah.	92

22-3-01	Disturbances in Sivaganga.	92-3
	To the Board.	
	Milapen with his bandits has made a second incursion from Sivaganga into Ramnad but he is reported to have again taken shelter in Sivaganga notwithstanding any letters to the Sherogar of Sivaganga on the subject of his presumption and folly in provoking the Company's displeasure.	
23-3-01	——— Attitude of Sivaganga.	93
	To the Sherogar of Sivaganga.	
	Milapen has again found an asylum in Sivaganga and the seizure and surrender of him and his adherents is demanded of the sherogar. Either the favour or the resentment of Government will be measured towards Sivaganga according to his conduct.	
	Treasure Remittance	
25-3-01	To the Paymaster, Madura.	94
	He forwards St. Pag. 20,000.	
	Treasure Escort	
26-3-01	To the O.C., Palamcottah.	94
	Prisoners	
28-3-01	Treatment of.	94-5
	To the O.C., Palamcottah.	
	Whatever arrangements are proper for the safe custody of the prisoners or to prevent improper communication, it appears an unnecessary hardship upon men of high caste to prevent the preparation of their food by their own servant or relation and the delivery of it to the prisoner in the presence of the guard.	
28-3-01	——— A cook appointed.	95
	To the O.C., Palamcottah.	
	Correspondence	
28-3-01	Instructions.	95

28-3-01	Movement of.	96

	Chinna Murdoo	
30-3-01	Conduct of. To the Collector, Dindigul. 1. The representation by the Tahsildar of Nattam agrees with other reports from a variety of quarters. 2. If by checking the presumption of Chinna Murdoo, the Sherogar, who was written to, tranquillity is re-established at Nattam, it is imprudent that the Tahsildar there propose for the worst.	97
	Tribute	
30-3-01	To the Collector, Dindigul. The Poligar of Cachacutty pays tribute to the Church of Madura and he is not subject to the Collector's authority.	97

The early restoration of tranquillity in the province is greatly owing to the good conduct of Lt. Miller and the chosen men placed under his orders by Col. Martinz.	99-100

31-3-01	To the Board.	100
	Sivagiri	
2-4-01	Succession. To the Board. 1. The young poligar of Sivagiri five days after the death of his father sends a vakil with expressions of obedience to the Company's authority and a part of the kist for March. 2. The remittance of a part of the kist gives a colour of sincerity to the poligar's professions and as it is of importance at this crisis to keep him in the right path, the Collector sends back the vakil with a pair of shawls for his master as a token of his goodwill.	101

	Poligars	
13-12-01	Suppression of. To the Board. 1. The jungles in which the rebellious poligars were taking shelter and intriguing with the rebels of the Carnatic have been destroyed and the land so cleared may be granted in perpetuity at 1 fanam per cawny as proposed by the Board. 2. The various documents go to show that a century prior to the assumption of authority by the Company the poligars of Sivaganga were engaged alternately in warfare against each other and in rebellion against the Government over them. 3. The measures which had been adopted by the Company's Government towards the poligars previous to August 1799 had not been general or permanent. At that period the Governor-General resolved that they should be reduced to the regular control of the Civil Government and armed Maj. Bannerman with power to effect this object. 4. The Collector proposes certain regulations for carrying into effect the orders of Government for collecting the arms of the poligars and the inhabitants of the southern countries. 5. The authority of the poligars and sherogars over the military classes of their inhabitants should be diminished.	321-33

22-12-01	Delay explained. To the Commercial Resident, Tinnevelly. The expectation that Col. 22-11-01	Misconduct of. To the Board. The execution of the rebel chiefs is likely to give security to the country and it is proposed to increase the revenues by persuading those poligars, who were misled, to take to cultivation.	162-3
	Discretionary Grants	
22-11-01	To the Board. 1. The ryots have become very poor owing to the plundering and destruction of the villages. Relief is very necessary for the purchase of the household of the villagers and other agricultural implements. 2. The Collector requests to be empowered to make discretionary grants in deserving cases.	163-4
	Sibbandis	
22-11-01	To the Board. Owing to the settlement of the province, the sibbandies and peons may be disbanded and an office at Madura may be abolished.	165-6
	Troops	
24-11-01	Withdrawal of. To the O.C., Southern Detachment.	167
	Surgeon	
25-11-01	Requisition for. To the Board. The climate in the mountains is extremely injurious and the survey boys have been alternately down with fever and dysentery.	167-8

20-12-01	Demolition. To the Board. 1. All the strongholds of the poligars in Virupakshi, Delli, etc., whether of stone or wood, have been demolished. 2. Roads have been cut in the most favourable directions to the Travancore frontier.	173-5
	Peons	
20-12-01	To the Board. The peons should be made dependent on the poligars and a decisive blow should be given to the existence of the feudal government in the south.	176-7
	Assignment of Lands	
20-12-01	Hill tracts. To the Board. The chief objections to the grant of lands near the hills and for roads are, (1) the falling of the revenue of lands offered at a lower rent, (2) the extreme unhealthiness of the localities, and (3) the sentimental prejudices of the ryots towards places formerly occupied by them.	177-8
	Arms and Ammunition	
20-12-01	Restrictions. To the Board. The prohibition respecting the carrying of arms has been proclaimed very frequently and all arms so carried have been invariably seized and destroyed.	178-9
	Jurisdiction	
20-12-01	Transfer from Tinnevelly to Madura. To the Board. The separation of the poligars from the country over which they pretend to the right of cawal and their paying tribute to Mr. Lushington cause confusion and trouble.	179-81
	Markets	
20-12-01	Shandies. To the Board. To enable the inhabitants to return to their places in different villages, shandies were established in different parts of the district, which had the full effect of affording comforts to them at a much lower rate than before.	181-2

20-2-01	Cultivation advances.	11-3
	To the Board.	
	1. The objections to the advance of Rs. 10 per cawny for the purchase of bandies and cattle for the carriage of cane to the works and for other agricultural purposes to be made through cutcherry are obvious.	
	2. There will not be left enough for the ryot for his subsistence after repaying the advances made by the Company.

	Disturbances	
21–2–1801	Poligars.	1–10
	To the Board.	
	1. The withdrawal " of the troops for the more immediately urgent service of the south and the consequent defenceless and unprotected state of these districts with the impossibility of the commandants of garrisons giving further assistance " have all contributed to the general insecurity of the provinces.	
	2. The poligars, who number between three and four thousand, are still at Delli. The provinces are greatly alarmed by the collection of banditti at Virupakshi and Delli.	
	3. There is much to fear from the secret and treacherous influence of these people. If the lesser poligars were not terrified by the more powerful ones, they would again return to their former obedience. Endeavours are made towards the security of the country and its revenues.

To Mr. Edward Campbell, Karaikal.

The Brahmins and the ryots are complained against for their want of attention to the culture of the cane. Whether the ryots and others have truly judged their own interest or not, it is evident from their own account that they are dissatisfied. Their dissatisfaction proceeds from disappointment, the causes of which are not yet known.

14-2-02 Delay in transmission—Explanation. 96

"The delay in transmission has been as unavoidable as vexatious—stupidity in not drawing out the accounts right caused references to Madura for the accounts of that cutcherry and sickness upheld in delay what stupidity had begun."

1. The Collector forwards a copy of the muchilika entered into by the Zamindar of Travancore with His Highness the Nabob of the Carnatic.
2. The Raja of Travancore in pretending to the right to name and pay his own watchers and the Resident, in supporting that claim, seems to contend for a privilege as hostile to the police of this province as to the security of property which the Company has desired to make the leading feature of their Government.

Miller, Lt.

8-1-02 Tentage. 13-4

The activity and courage of Lt. Miller during the time he commanded the detachment of the Marawa Battalion on field service and the great advantage derived to the public service deserve the sanction of Government for his small bills for tent allowance. (See p. 51).

20-4-02	Clothing. To the O.C., Tinnevelly. Any expenditure under the head "Prisoners clothing" cannot be brought to public account without the sanction of Government, but as it is desired to soften the fate of these unhappy women as far as possible without hazarding the tranquillity of the Company, the Collector is willing to take upon himself the personal responsibility of providing such clothing as may be judged necessary for their immediate comfort.	100

10–5–02	Ryots' complaint against the Peshcar.	119–22
	To Lakshmana Rao, Peshcar.	
	1. The ryots complain that the rent bears oppressively upon them. The result of Mr. Read's survey and measurement is highly unfavourable to the justice of the settlement.	
	2. " In concluding the rent, it was my intention, instead of extorting the uttermost fanam from the people, to leave a little sum as an advantage to them to better their condition, and as an arrangement for their ready acquiescence in accepting the heavy responsibility of a money-rent."	
	3. The Collector forwards the report of Mr. Read on the assessment of the village of Kulakkattakkurchi.

The Marawars abundantly possess, in their own labour if they will employ it, the means of maintaining their families and they have further experience of the danger and disadvantage of depredation. It is hoped that they may at length betake themselves to industrious pursuits.	128-9

	Settlement Report	
28-5-02	F. 1210. To the Board. 1. The Collector forwards his settlement report for f. 1210. 2. By the time the country was taken over from the Nabob the season for cultivation had already begun and the farmers to whom the country was leased in the preceding year did not take proper advantage as they became uncertain what authority would supervise them during the next year. 3. The average cultivation for the last 10 years was less than the car cultivation of the present year which amounted to cottahs 18,567-19-5¾. The ryots objected to the levy of a money rent. The whole of this settlement was at first concluded in money but finding that the hopes of those sowcars and conicoplies who before dealt so largely in grain—equally to the loss of the Circar and of the ryot—were revived by this arrangement and that they were contriving to depreciate the value of the produce, it became necessary for the welfare of the people to receive some of the settlement in grain at the jamabandi price. By this arrangement the Government could control the price. 4. The charges of collection and the establishment have been completely revised and the establishment costs C. Ch. 6-7-4¾ per cent. upon the collections. The establishment of the sibbendies has been reduced and if found necessary it will be further reduced. 5. As the peace and prosperity of the country demanded immediate attention after the rebellion at Panjalamkurichi, the cawalgars were all invited to resume their proper duties. 6. The abolition of all duties by land on the transit of grain has been a substantial and general benefit to the inhabitants and the revenues forthcoming to the Company from the customs are materially above the collections of former years. 7. The expulsion of the Dutch from the province relieved commerce and manufacturers from restrictions under which they could never have flourished. 8. The ryots applied for aid to the Company for the repair of tanks and watercourses. 9. The settlement of Sivaganga continues the same as in the previous years and the extreme favourableness of the season and of the state of the cultivation in Ramnad have helped to the completion of an advantageous settlement.	3-34

	Tent Establishment	
9-12-02	Abolition objected to. To the Board. 1. The necessity for an establishment of tents and of lascars for the Collector, his records and his cutcherry is obvious considering the nature of a Collector's duties. The range of districts under his superintendence has been more than doubly augmented. As the lascars in question were ordered for the station by express authority of Government the same sanction appears to be necessary for their removal. 2. This inconvenient measure may be avoided as nothing will be saved to the Company by their removal; for, the duties upon which they are occasionally employed at the cutcherry in attending the cash chest, records, etc., must otherwise be done by a greater number of persons not so well qualified for the work. 3. The Collector forwards a copy of a paper signed by the Head Assistant of the Military Board relative to tent lascars.	157-8

" The peons are so chosen as to render each party efficient to the other on which side so ever an attack may be made." 3. The dress of the peons is uniform and adapted to their intended services. 4. They are not suffered to remain long in any station but are changed generally every month ; " this is as much to prevent any assumption over the ryots as to encourage the ryots to complain of any neglect of duty on the part of the peons." 5. They are registered according to a form (enclosed) and complaints against them are investigated by a panchayat. Complaints have not been frequent. 6. They are regularly mustered every month previously to their being paid. Discharges are never made but by the Collector and unless for faults committed, only at the express request of the peon applying. 7. They are not under the control of the Tahsildar or any revenue servant, save on requisition for service. 8. The chief cause of their general success has been derived from the Collector's own and their perfect knowledge of the country which has enabled him to direct and cause them to execute their work with promptness and precision. Men who have no local attachments are generally preferred. 9. The Collector is of opinion that a native should not have the direct control, even in appearance, over such armed bodies of peons.	119-24

31-5-03	Coinage has proved profitable. To the Board. 1. The Collector reports to the Board that the coinage of cully fanams proved profitable during Mr. Lushington's management of Tinnevelly and that he also continued it by virtue of his instructions. 2. "The Paymaster having frequently represented the inconvenience of receiving his advances entirely in pagodas, which precluded the possibility of issuing to the troops that part of their pay they must receive in fanams induced Mr. Lushington to commence the coinage, which has in a very essential degree removed the difficulty then complained of."	75-6

	Panjalamkurichi	
19-6-03	Report on the rebellion. To the Board. 1. The delay in the transmission of the report is attributed to Mr. Lushington's anxious desire to see the orders of the Board carried into full execution prior to a report being transmitted.	86-91

Date.	Abstract.	Page number.
	Panjalamkurichi—*cont.*	
	2. The grain and ready money plundered in Ramnad amount to St. Pag. 24,473-16-33; of this St. Pag. 10,541-24-67 has been collected from the inhabitants including fines.	
	3. There are ample proofs of the attachment of the head inhabitants to the Government, for in no instance has it been discovered that any person of the least respectability joined with the rebels and that nothing but necessity forced them to acknowledge the authority then existing for the protection of their lives and property, as a removal from their villages was invariably followed by the destruction of their houses by fire and the plunder of every article that could be removed.	
	4. The poligar, immediately after his escape from Palamcottah, took upon himself the management of the pollams and extorted from the inhabitants St. Pag. 10,000 more than the usual jaina.	
	5. The havoc which was occasioned by death and emigration among the people of Panjalamkurichi, the complete destruction of many villages and the great loss of cattle by plunder have so materially reduced the resources of the country and the means of the inhabitants, that many years must necessarily elapse before they can recover from the fatal effects of the late rebellion.	
	6. The renter of the Ramnad chank, chaya and salt prefers great claims to remission on account of the Sivaganga hostilities and the Collector testifies to the correctness of the loss estimated by him.

20-6-03	Settlement report—F. 1212. To the Board.	93-119
	1. Although the revenue year opened with the most favourable prospect of a productive revenue, a more extensive cultivation having been carried on than had been known in any former time, yet the failure of the periodical rains which are required to bring the ears to maturity defeated the industry of the ryots and there was almost entire failure of the harvest in many purganahs.	
	2. The settlement was carried on under *amani* and due consideration was given to the loss sustained on account of want of water.	
	3. The car cultivation in the present fasli amounted to callams 24,901—4—2¼ being an increase of callams 2,236—9—1½ upon the lands cultivated in the previous year. There is an increase of callams 3,448—15—6 in the cultivation of pishanum which amounts to callams 61,755—14—2.	
	4. The settlement for f. 1212 was greater than that of any year except f. 1211, though there were very many unfavourable circumstances.	
	5. *Ramnad.* The zamindari was placed in the hands of Ranee Mangaleswara Natchiar.

	Dutch Possessions	
30-6-03	In Tinnevelly.	125-34
	To the Board.	
	1. The Dutch had only 1,000 sq. yards of land in Tuticorin previous to its capture by the Company. The attempts of the Dutch to extend their habitations outside the fort were strongly resisted by the monigar of the Nabob's government and at one time when they began to encroach upon the Nabob's territories and refused to retreat, the monigar cut off all supplies and prohibited the supply of even water and other daily requisites.	
	2. By an agreement entered into with the Nabob and with the aid of Parawas, who were mostly converts to Christianity under the influence of one Jadi Talaiven, the Dutch shared one-half of the profits of the chank and pearl fisheries of the Tuticorin coast with the Nabob's government. They also collected a fee from each native ship passing the coast for the grant of a passport in consideration of exempting it from search. They maintained a chain of armed boats along the coast for the ostensible purpose of preventing depredations on the fisheries.	
	3. "With no landed possession, but that upon which the port of Tuticorin stands, and with no power of jurisdiction ever in the village of Tuticorin, or any other, with no means of supplying themselves with the common necessaries of life, but from the Company's districts, and no divers to work in the fisheries but those who inhabit the Company's villages, it is very evident, that to make the possession of Tuticorin desirable to the Dutch or the fisheries upon the coast of Tinnevelly a source of revenue to them, depends entirely upon the disposition of the British Government to befriend them."

"If the Madras Government do not approve the treaty it is not binding, the Government of Ceylon having withheld the ratification." 2. At the time the treaty was formed with the Dutch by His Highness the Nabob of the Carnatic, he had previously engaged with the Government of Madras that he would not enter into any political negotiations or controversies with any state or power without the consent or approbation of the President in Council of Fort St. George. 3. A fixed establishment need not be entertained but the charges actually incurred may from time to time be sanctioned by the Board. To prevent the heavy expense of carriage by land the cinnamon at present on hand amounting to 2,011 lbs. may be sent to Tuticorin and from thence shipped to Madras by sea. 2. *Courtallam.* The plantations are in general in a flourishing way particularly since the old wood has been cut down, which prevented the young shoots from growing. They are now more luxuriant in their growth and promise fair for a regular season.	166-7

	Peons	
3-1-1803	Dindigul.	1-2
	To the Board.	
	1. The regular establishment of the peons is in parties of Duffas. The peons are so chosen as to render each party efficient to the other on which side so ever an attack may be made.	
	2. Their dress is uniform and they are armed with pike or matchlock. They are not suffered to remain long in any station but are changed generally every month. This is as well to prevent any assumption over the ryots, as to encourage the ryots to complain of any neglect of duty on the part of the peons.	
	3. They are registered in a descriptive roll and complaints against them are investigated by a punchayat or jury who report to the cutcherry their proceedings on which the decision is given. There have been few complaints against them.	
	4. They are regularly mustered every month previously to their being paid. Discharges are never made except by the Collector. They are directly responsible to the Collector and they should not be under the control of a native officer even in appearance. Their knowledge of the country and people is thorough and hence they are more useful than the regulars.

	To the Commercial Resident, Ramnad.	
	Any partial exemption from loom-tax is objectionable.	
	"Having had reason to believe that a weaver, registered by the Commercial Resident and exempted from taxes, has not the power under opinions at present assumed to dispose of his own labour, and is disqualified from working for individuals, although the insufficiency and precariousness of the Company's funds frequently render them unable to afford advances to the weaver so steadily or largely as they may require, I cannot but consider a restriction so indefinitely applied as it is at present a strong and important objection to any partial exemption whatever."

	Salt Manufacture	
23-11-03	Regulations. To the Board. 1. The present system of salt manufacture seems to be more suitable than the proposed system would be. The owners of salt pans, who are indigent ryots, can ill afford the advances required by the labourers. Even were these advances given, it often happens that the sale of the produce is delayed by unforeseen causes. The want of funds to prosecute the manufacture of this valuable branch of revenue would either cause them to relinquish their pursuit or the cultivation would be continued on so confined a scale that the price of salt must of course rise in proportion to the yearly decrease of the produce, to the incalculable injury and distress of the poor. 2. A separate establishment is considered necessary for the control of salt pans and such a procedure will increase the net revenues of Government.	62-3

The Collector also recommends the remission of a portion of the rent payable by Cadambalingam Pillai due to these facts.	64-6

As the Poligar of Marungapuri laid claim to a portion of the villages owned by the Tondaiman, a survey of the disputed lands was ordered to compute the extent and the value of such lands. The Tondaiman directly or indirectly put several obstacles in the way of the survey carried on by the assistant native surveyor and he has not only collected all the revenues for the current year but also collected an advance of rents from several ryots as he is fearful of the consequences of any enquiry that may be made into the respective claims of the Marungapuri Poligar and the Tondaiman.	68–71

	Revenue Survey	
22-1-04	. Benefits of.	11-9
	To the Board.	
	1. The Collector differs in the principles of assessment enunciated by Mr. Cochrane.	
	"The acknowledged abilities of Mr. Cochrane in the Revenue line would at all times induce me to give the most attentive consideration to his arguments before I ventured to oppose them; but in the present instance it appears to me that to remit the assessment, or, as stated by the Collector, 'to add such sum only as a due consideration of the circumstances of the ryots will admit of,' would be an act of injustice to those inhabitants who have paid the full amount of teerwa, considering that the remission of it hitherto has not been made from a conviction of their incapacity to bear the assessment but from the want of a correct account whereby the amount of cultivation could be regulated."	
	2. The completion of the survey of the district will materially increase the revenues as it would help in fixing the assessment on dry and wet lands.	
	The last survey was in 1743 and till now the Company had to depend on the statements of the ryots and their accounts which were mostly exaggerated, if not false. Hence nothing less than a correct survey could disentangle and regulate those accounts and at the same time expose clearly a satisfactory record of all unauthorised and fraudulent alienations from the circar lands.	
	3. The produce of the lands is not generally shared by the Company and the ryots in a judicious manner and the survey will clearly show the capacity of the soil and will help in fixing the assessment without prejudice either to the Company or to the poor ryots.

	Settlement Report	
8-6-04	F. 1213. To the Board. 1. The settlement of the districts is satisfactory. 2. *A good year.* The cause of the considerable augmentation in the present settlement upon the public collection in former years is more gratifying since the increase is due to the fair resources of the country by an extended cultivation which may be considered a proof of the energy with which the ryots will exert themselves when they are confident of reaping the produce. 3. *Madura.* The total settlement for the present year including pagoda lands and desh-cawal amounts to St. Pag. 1,19,464-0-19 being an increase of St. Pag. 8 per cent. on the jumma for f. 1212 and St. Pag. 24 per cent. on the collections of f. 1211. 4. *Collections in kind.* Agreeable to Mr. Hurdis's settlement, the Collector has stipulated to receive a part of the rent from the ryots of Palni, Periakulam, Madakulam and Sholavandan in kind which is advantageous to the ryots and the Government. 5. *Police.* The introduction of a vigorous system of police supported by the establishment of criminal courts has been attended with the most salutary effect by putting a stop to those scenes of depredation committed on the high road. 6. *Manapparai.* The peshcash hitherto paid by the poligars of Manapparai is totally inadequate with the real resources of the country. The settlement amounts to St. Pag. 27,726-35-15 being two thirds of the gross revenue and representing an increase of St. Pag. 13,900-32-65 on the mamul peshcash. The poligars have paid the amount with regularity. 7. *Dindigul.* The settlement amounts to St. Pag. 37,237-31-56.	93-102

	8. *Ramnad.*	
	The southern zamindars have paid their kist regularly and the settlement amounts to St. Pag. 2,68,101–0–0.	
	9. *Land and sea customs.*	
	The sayer revenue of the Madura, Dindigul and Manapparai pollams has been assumed but the irregularity which prevailed in the collections under the poligars and the difficulty of ascertaining correctly the proper places for the establishment of town and frontier duties caused the delay in the transmission of the list of servants necessary for this department.

To the Board.

1. The Collector forwards the declarations and depositions made by the Poligar of Aikudi and several other people involved in the Virupakshi rebellion for the consideration of the Board, stating that he has confined the Poligar of Aikudi in a choultry under Capt. Hamilton's guard. The examination reveals the various conferences between Latchma Naick and the Poligar of Aikudi and the help rendered to Latchma Naick by providing him with men and provisions.
2. The Collector states that the general character of the poligar has hitherto been unimpeached, that in times of difficulty he has been faithful, obedient and foremost in the offer of his services and he considers that the line of conduct adopted by the poligar upon the present occasion has originated in a justifiable and well grounded apprehension of falling a victim to the evil designs of his enemies.
3. The Collector recommends to the Board the acquittal of the Poligar of Aikudi and desires that the verdict of the Board should be conveyed to the poligar in the most public and solemn manner.

	Virupakshi Rebels	
13-8-04	Transfer of prisoners to Trichinopoly. To the Chief Secretary to Government. 1. The delay which has occurred in the removal of the rebel prisoners to Trichinopoly for the purpose of taking their trial before the Special Court, was owing to the difficulty of procuring evidence against many of the principal offenders. The persons who are most capable of affording information relative to their guilt are deeply implicated in the same crimes and are ignorant of what may befall them. They continue in concealment in the surrounding jungles. 2. The Special Court at Trichinopoly may continue to assemble till all the evidence is secured. 3. Latchma Naick, the chief rebel of Virupakshi, will be removed to Trichinopoly this day.	181-2
13-8-04	——— To the Judges of the Special Court. The O.C. in charge of Latchma Naick will report his arrival to them. The witnesses who gave evidences in support of the charges against the chief rebel will also attend.	182

13-8-04	Requisition. To the O.C., Dindigul.	182-3
	Virupakshi Rebellion	
14-8-04	Report. To the Board. 1. The Collector attributes the rebellion to two causes, viz. (*a*) the characteristic nature of the southern people to defy the authority of an established government and (*b*) the ambition and bravery of Latchma Naick, the chief rebel. 2. The adherents were mostly relations of the chief rebel and they joined forces with the rebel on the threat of being insulted before their people and deprived of their possessions. From the evidence available it is certain that Latchma Naick created the trouble for the sake of mischief itself and he should meet with a just punishment so as to furnish an object lesson to the other poligars to prevent them from falling into the same evil way.	183-90

	Betel and Tobacco	
17-12-04	Regulations.	252-5
	To the Board.	
	1. "The enlightened principles on which these regulations have been framed renders it unnecessary to remark that the abolition of the former sayer duties and the abuses incidental to that system has conferred material advantages on the country at large, in having exempted the main body of the people, who contribute largely to the general resources of the Government from the payment of customs, whilst the inhabitants residing in large towns, contributing little or nothing to revenue, have been fairly and equally assessed."	
	2. Betel and tobacco are luxuries with natives and ought to be taxed in proportion to other articles of the same description. The partial introduction of the Madras duty has subjected the cultivators of betel and tobacco in Madura and Dindigul to considerable loss and inconvenience, since the merchants find it more to their interest to proceed to Tinnevelly or Dharapuram for the purchase of those articles, whilst the inhabitants of this country can find no market for their produce. The Collector, in order to prevent any material loss to the revenues from a possible decreased cultivation of betel and tobacco, has reduced the assessment on tobacco to the rate fixed upon in the neighbouring districts.	
	3. Since the introduction of the new regulations there has been a considerable increase in the collections; the total receipts from 1st March to 31st October amount to St. Pag. 38,213-10-71½, charges to St. Pag. 4,923-32-43 giving a net revenue to Government of St. Pag. 33,289-20-28½. The sayer receipts yielded a net profit of St. Pag. 22,692-1-10.

27-4-05	Escort to Madura. To the Collector, Trichinopoly.	48
	House Tax	
30-4-05	Levy of. To the Board. 1. The Collector proposes the abolition of chowkis and town duties and recommends the levy of a house tax. 2. The province of Madura contains 43,320 houses. They are to be divided into three classes. The assessment for the 1st class is Mad. Fan. 21, for the 2nd class Mad. Fan. 16 and for the 3rd class Mad. Fan. 12. The formation of a larger number of classes would have given rise to troublesome and obnoxious enquiry into the private circumstances of the people. 3. In the first class are included all cultivators who have two ploughs, all persons paying poroopoo to Government and who have hitherto contributed largely to the surna-adyum collections—all merchants, bazaar men and weavers, who will benefit greatly by the abolition of the town duties and other taxes. 4. In the second class are included all persons employed in public situations, all inhabitants called sugavasy, who have no miras in the village but are settled either as under tenants or day labourers. 5. In the third class are placed carpenters, smiths, barbers and chucklers. 6. The Collector proposes to exempt a number of houses from the payment of any tax, being inhabited by menial servants, slaves, widows and beggars. 7. The house tax will yield a net profit of St. Pag. 10,731-29-58. 8. The advantages which will result to the inhabitants are equally considerable with those which promise to accrue to Government. The removal of the chowkis will give vigour to trade whilst the people at large will benefit by receiving every article of provision and the necessities of life at a much cheaper rate. Mechanics, weavers and other trading people will not only participate in those advantages but will also be relieved from all personal and professional taxes which far exceed the amount now recommended to be fixed as a house tax.	49-52

13-5-05	Zamindaris—Statement.	58-9
	To the Board.	
	The balance due on the 30th April by the Zamindars of Tinnevelly, Dindigul, Madura and Manapparai amounted to St. Pag. 58,559-26-68. Of this sum the poligars have paid since the issue of warrants St. Pag. 20,288-19-70 leaving an arrear of revenue to be collected of St. Pag. 38,271-6-78. The ameens have been directed to assume only such portion of the zamindaris as will secure the dues of Government. The accumulation of arrears in the present year, is not to be ascribed to any mismanagement on their part but is only to be accounted for by reference to the effects of an extremely dry season.

	Ryotwari Settlement	
25-5-05	Report.	62-77
	To the Board.	
	1. *Remissions.*	
	Notwithstanding the discouragement due to an extremely bad season, the ryots pursued their labour in the fields, but the crop was exiguous. The Collector recommended the remission of the dues to Government and the Government's approval of the proposal secured the ryots against loss. The measures adopted by the Collector for the relief of the circar ryots were adopted by the poligars also.	
	2. *Demand.*	
	After deducting the remissions granted to the ryots on the nanjah and punjah lands the settlement of the province and the sequestered palaiyams of Nattam amounts to St. Pag. 91,451-36-56.	
	3. *Balakrishnapuram.*	
	Balakrishnapuram is the only estate which remains unsold of the Dindigul zamindaris because of the effects of the late drought. The settlement amounts to St. Pag. 955-0-51 being a decrease of St. Pag. 996-21-50 on the jamma permanently assessed on this estate.	
	4. *Pollams.*	
	The decrease in the revenue of the Tinnevelly pollams is also due to the bad season. The want of regularity on the part of the poligars in the payment of their peshcash is not to be ascribed to mismanagement but is only to be attributed to causes and accidents which could neither be foreseen nor guarded against.	
	5. *Introduction of money rents.*	
	The measures adopted under the instructions of the Board for the eventual introduction of a money rent and the ready acceptance of this proposal by the inhabitants, from whom a large proportion of grain has hitherto, yearly, been received, afford reasonable hopes of expectation that the commutation of the circar share in the crop for a fixed rent may be considered firmly established in the province of Madura.	
	6. *Pattas.*	
	The system of issuing individual pattahs to each cultivating ryot has been observed in Madura since its assumption by the Company.

	Police Establishment	
10-7-05	Report. To the Committee for investigating and reporting upon the present establishment of Police. 1. *Cawalgars.* Past experience and the concurrent testimony of previous officers show the inadequacy of those measures hitherto pursued of establishing through the medium of cawalgars, a vigilant and efficient police. 2. *Hindu and Mahometan administration.* The police establishment during the Hindu administration afforded ample security to persons and property—as well by the prevention of crimes as the speedy apprehension of offenders. But during the Mahomedan administration that followed, the efficiency of the police appears to have been impaired. Ever since the assumption of the province by the Company there has been a favourable change in the regulation of the police which may be partly attributed to the vigilance of European authority. 3. *Poligars.* The cawalgars who did the police duties instead of preventing robberies, acted as robbers, themselves. But owing to their local knowledge and general acquaintance with the characters of the people, they could be made useful instruments in the hands of Government if a strict watch were kept over them. The poligars who began to defy the Nabob's authority, took over the control of the police and thus they began to exercise police powers also.	105-27

	Ramnad	
19-5-06	Settlement. To the Board. 1. The zillah of Ramnad being wholly composed of zamindaris in the hereditary possession of the poligars, is paying a tribute which has been liable to little or no alteration since the year 1800. A fluctuating land revenue payable by a zamindar to Government has been justly considered the cause of much oppression, for whilst the Circar raises its rent at its pleasure, a zamindar will always escape reproach for increasing his demands in the same proportion on his ryots, leaving to the zamindar the same amount of income much to the inconvenience and discomfort of the ryots. The permanent settlement has produced in the conduct of the poligars, a respect for the laws of the country resulting in the peace and tranquillity throughout the province. 2. The advantage which the public at large has experienced by limiting the powers of the poligars is also great. "The principle of the permanent settlement as observed in the southern countries requires no modification to render it more applicable to the local situation and circumstances of the people. A zamindari tenure having been the system of Government for ages back, it required perhaps less trouble to establish it on the solid basis of permanent security than in other districts where Government have exercised the exclusive privilege of superintendence, but independent of this advantage, I foresee no change which would ameliorate the present situation of the people—protected as they are in the enjoyment of their rights and privileges under the mild dispensation of fixed and defined laws. The difficulty which is occasionally represented to exist in realizing the dues of the zamindars, arises in a great measure in their ignorance of those powers with which they are vested by the regulations and their dislike to deviate from those forms which have hitherto governed their conduct towards their dependants. It will require much time to make the poligars thoroughly sensible of the important benefit which the introduction of a permanent system has conferred on them, of the necessity to introduce regularity into their revenue affairs, which have hitherto been managed according to the will and pleasure of each poligar—some allowance ought perhaps to be made on this subject in favour of the poligars considering the sudden change of Government from arbitrary authority with which they were vested to the strict exercise of fixed laws, under numerous and intricate forms which they have neither inclination to study nor ability to comprehend."	66-70

25-5-06	Grant of remission to the Rani of Ramnad. To the Board. The Collector addressed the Judge at Ramnad to ascertain the amount of remission granted by the Rani to Abdul Cawder of Kilakarai who was the renter of the fishery in ff. 1213 and 1214. But Abdul Cawder refuses to declare the amount of remission granted to him by the Rani. 29-5-06	Complaints against ryots—Notification to all the zamindars in the zillahs of Ramnad, Madura and Dindigul. 1. Frequent complaints are made by the zamindars in the zillah of Ramnad that owing to the refusal of ryots to pay their kist, and the want of authority to enforce their demands, the poligars cannot make good their peshcash. 2. That this excuse is founded solely on the ignorance of the poligars of the present regulations the Collector is perfectly assured of, for if they would give themselves the trouble to peruse them, they would find, that the authority vested in them for realizing their dues is much greater and more efficient than it ever was before. 3. The Collector warns them of the inconveniences resulting from an ignorance of the regulations and advises them of the happy results that will follow a prompt and just payment of the dues to Government.	79-83

	Government Pleader	
16-6-06	Madura. To the Secretary to Government, Judicial Department. 1. 	Jamabandi Report	
21-6-06	F. 1215. To the Board. 1. *Monigars' duties.* Monigars were appointed to superintend the revenues of four or five villages as a measure of great importance. As the season appeared to be unfavourable they were ordered to be particularly active in noticing the extent of the crop likely to be destroyed from the want of rain and to survey the lands actually cultivated as the Collector had a strong suspicion in his mind that the former survey conducted by the nattamcaurs and karnams was incorrect and that the monigars would have full leisure to attend to this subject independent of their other duty and without any additional expense to the Circar. The result of this measure showed a net increase of cawnis 1,369-6¼ in the nanjah cultivation and cawnis 24,749-4¾ in the punjah cultivation. Considering the increase which occurred by the survey the Collector also allowed a remission on the unproductive lands under the head of shavi amounting in nanjah to St. Pag. 3,514-17-18 and in punjah to St. Pag. 982-23-15.	103-10

The relations of the two minor sons had collected armed parties to contest their succession by violence. The Collector, apprehending trouble, had promptly ordered the amin to maintain peace and persuade the parties to disperse. The Collector speaks well of the deceased zamindar who had left instructions to seal his treasury and records and deposit the keys with the Collector. The Collector solicits orders for the settlement of the disputed succession and recommends in the meanwhile the appointment of a guardian and a manager for the estate.	25-48

25-11-06 Renting report. 62-8

To the Board.

1. The Collector called for proposals for the exclusive rent of betel and tobacco for each zamindari for one year before 20th September 1806. Several tenders were received but the highest ones were accepted. A month and a half time was given to the existing retailers to clear their stock and they were warned against any further selling of the commodities under the penalty of confiscation of the articles in addition to a fine which will be determined by the court.

2. In fixing the rent the Collector took into account the prices that existed during the previous three years and as the profits of the retailers varied from 25 to 125 per cent., the Collector fixed the rent leaving a margin of 75 per cent. for the retail vendors. The cultivators were however left free to fix their own price which would depend upon the season of the year, the nature of the demand and the poorness or the abundance of the crop. Cowles were granted to the renters securing to them the exclusive trade in these articles and muchilikas were obtained from them for the due fulfilment of the conditions stipulated therein.

As the undertaking is of vital importance to them the Collector requests their co-operation in the survey of the land and to form an estimate of the benefits that will be ultimately derived by their ryots and themselves.	56-8
	Ryotwari Settlement	
30-6-07	For f. 1216—Report. To the Board. 1. *The season.* There were abundant falls of rain in the early part of the year but the subsequent failure of the periodical rains in November caused a considerable decrease in the produce of the lands. 2. *Remissions.* The circar share of the crop having been commuted for a fixed money rent, any partial deficiency in the produce above alluded to, did not affect the resources of the Company, because no remission was allowed where any part of the crop came to maturity. In situations however where a ryot's cultivation was confined to one or two cawnis and either one half or the whole perished, the Collector deemed a remission of the land tax a necessary measure and consistent with that regard for the situation of the people so strongly inculcated by th order of Government.	58-65

Ryotwari Settlement—*cont.*

3. *Demand.*

The total extent of cultivation in the province of Madura and the sequestered pollam of Nuttum in the present year amounts to cawnis 1,25,415—13¾, there being a net decrease of cawnis 9,245—14½ as compared with the previous year. The total gross settlement amounted to St. Pag. 1,29,478–16–27. Making allowance for the authorized payments to the seven principal pagodas in the district and the 'Urda Maniems' the net settlement came to St. Pag. 1,22,003–26–58 being less by St. Pag. 2,795–14–8 than the revenue derived from these countries in the previous year, i.e., f. 1215.

4. *The judicial system.*

"The introduction of the judicial system in a province not permanently settled and the application of laws which seem to imply, that the rights mutually assigned to the Government and its subjects have been clearly defined, are circumstances naturally productive of serious obstacles to the efficient exercise of revenue authority and which I trust are too obvious to render a detailed statement of them necessary."

5. *Village leases.*

The Collector proposes a change of revenue administration from the mode hitherto pursued. "At a time when the influence of a few head inhabitants controlled the main body, the benefit of a ryotwar rent could not be denied. In the same manner the survey of the province has been of great advantage to the public by having enabled us to regulate and apportion our demands upon the principles of moderation and justice and finally in having furnished us with a correct statement of the resources of the country."

The Collector now proposes to the Board the desirability of renting the province of Madura by villages to individuals for a period of three or five years, the resident inhabitants receiving the first offer as renters. As the people in India are accustomed to look up to an intermediate authority for protection, etc., the Collector recommends the renting of the villages to important individuals who could be expected to superintend to the needs of the ryots in a much better way than Government, provided the individuals do not misuse their authority and influence.

The Collector submits to the Board his report, detailing the arrangements for collecting the revenues of Dindigul with explanatory statements on the subject. 2. *Ryotwari now unsuitable.* The persons who purchased the estates which were sold to realize the balances due from the poligars, also fell into arrears owing to the unfavourable season and the absence of timely rains. The Collector is of opinion that the ryotwari settlement is altogether incompatible with the existing regulations and submits to the Board his proposal regarding the propriety of renting the lands by villages for one or two years to head inhabitants. 3. The Collector recommends the adoption of the village renting system for the reasons already given by him.	67–76

"If a doubt ever existed as to the propriety of drawing 250 pagodas salary whilst the Zillah of Ramnad continued subject to my superintendence, it was certainly removed when I expressed a desire to be relieved from that of my charge and His Lordship in Council was pleased to acquiesce in my solicitation by which the collection of permanent rent was reduced to St. Pag. 93,033-10-69 of a total revenue of St. Pag. 3,20,190-6-58½."	88-9

	Moyenzabitah	
25-7-07	Reduction—Objections. To the Board. 1. The Collector reports that any reduction in the establishment under his charge would lead to evils of greater magnitude than those which were intended to be remedied by the orders of the Honourable the Court of Directors. 2. The continuance of the police under the revenue authority and the existence of a divided authority between the Collector and the courts require more than ever the employment of intelligent servants to whom a liberal reward is the greatest incentive and the best security to Government for a diligent and faithful discharge of their duty. The consequence of deviating from the regulations is at the risk of the offending party and the responsibility for such a proceeding does not rest with the Collector. The duty of a revenue servant can never be separated from the interest of the public, and as the law cannot be infringed without injury to that interest, so must a Collector always deem it an imperious duty to guard against the employment of unfit instruments for the execution of his orders.	91-3

Previous to the investigation by the Circar the revenue was collected according to an ancient custom, which exempted certain inhabitants from paying the full assessment and which may be explained under the following four heads :— (*a*) *Puttcut ryots.* They were considered the owners of the land and they paid the highest land tax without reference to the extent of cultivation. They had an hereditary interest in the land. (*b*) *Vellaversay ryots.* They had no hereditary interest in the land but they were next in rank to the Puttcut ryots and paid a lower teerwa than the Puttcut ryots. (*c*) *Yerwaddis.* They were the "non-residentiary" ryots who cultivated the land. Their teerwa was still lower than that of the Vellaversay.	26–66

Jurisdiction

17-8-08 Police—Tanadar's action. 110-5

To the Judge, Trichinopoly.

1. The manager of Ramgherry Zamindari complains against the thanadar, Muthucaruppa Pillai, that as a police officer the thanadar can have no authority to issue a proclamation "requiring the inhabitants to give a correct account of the collections in f. 1217 and that if any extra collections had been made, he would cause re-imbursement to them."
2. Such interference on the part of the thanadar is highly improper and can be attended with no other effect than to throw obstacles in the way of the revenue authority.
3. The Collector is aware of the limited scale on which the police of the country is organised and he assures the Judge that he may rely on his hearty co-operation where the assistance of revenue servants can be of any avail in furtherance of the public service.

Where sunn-hemp was ever obtainable (about 100 miles from Ramnad) the lowest price known was fan. 33-60 to the Madras maund of 25 lb. exceeding the highest price paid in Bengal by fan. 12-50. The advance made in September last for 20 candies has been returned and the sanapars cannot succeed in cultivating this plant. 3. "The soil best calculated for producing the sunn-hemp, is the common paddy ground manured once a year with the leaves and stumps of the plant. The first season for sowing is about October, and the gathering of the crop in January, the second in April and the gathering in July."	36-7

Settlement Report

20–6–1809 Ff. 1218–20. 1–9

To the Collector of the Provinces of Madura and Dindigul.

1. The jumma has been assessed on a just and equitable basis consistent with the requirements of local situations and circumstances. There is an increase in some villages and a decrease in others. The demands of Government for f. 1218 have been regulated with reference to the cultivation previously carried on, adding the difference due to decrease to the revenues of ff. 1219 and 1220.

2. The Collector has made an advance of taccavi amounting to St. Pag. 354–24–44. He states that the tanks are in disrepair and that a statement of advances on that account is being prepared.

3. There has generally been an increase in the settlement of this district.

	Settlement Report—*cont.* The increase in revenue in Sholavandan is very small due to the lands lying vacant for want of cultivators principal among whom died of a dreadful fever which raged in those parts for nearly two months. The reason for the smallness in the increase of revenue in Melur is due to the migration of several ryots to the neighbouring zamindari estates for employment.	
	4. The Collector states that the conduct of every public servant who accompanied him on his tours was very satisfactory.	
1-5-11	**Correspondence** Delay explained. To the Board. A great sickness has of late prevailed in Dindigul and the whole establishment, excepting 2 writers and the sarishtadar, has been afflicted with it. Hence the delay in the transmission of the monthly accounts.	10
20-5-11	**Revenue Establishment** Employment of additional hands. To the Board. As the whole staff has been attacked with fever, the Collector requests sanction to employ additional hands for the discharge of the official business.	10 15
15-5-11	**Salt** Decrease in the sale of. To the Board. 1. The Collector has ordered an enquiry into the causes for the decrease in the sale of salt. 2. The incessant rains put a stop to the manufacture of salt and the merchants were totally prevented from resorting to the pans. More than any other cause, the complete change of the season on the coast is wholly responsible for the decrease in the sale of salt.	11-4
...	**Copper Coins** Rate of exchange. To the Accountant-General. The Collector forwards a statement regarding the state of the copper currency in these districts.	15-9
22-5-11	**Revenue Arrears** Realization of. To the Board. 1. The Collector experiences very great difficulty in the realization of the kists for the present fasli owing to the prevalence of a dreadful fever throughout the country. The ryots have been ailing and are unable even to reap the harvest. The neighbouring villagers are also unable to assist in harvesting the ripe crops and so it is not possible to collect the kists from them. 2. Further, the rent was estimated some three years back without reference to any future calamity like this and the Collector recommends that some indulgence should be shown to the ryots to enable them to maintain themselves and work in the fields during the coming year. 3. The Collector explains that much delay has occurred in replying to the Board's communications due to the same reason that most of the establishment is also afflicted with the same dreadful fever.	18-27

29-6-11	D.C.B.—Statement for April and May 1811. To the Board.	28-31
	Christie, Mr. M.	
10-7-11	Assistant Surgeon—Allowance. To the Civil Auditor. There is no sanction for the payment of a monthly allowance of Pag. 17 to superintendents of vaccination. As the duty which has been entrusted to Mr. Christie will require his frequent personal attendance in the different parts of the district and must of course be attended with some expense, the Collector recommends that the sanction of Government may be obtained for the grant of the monthly allowance.	31-2
	Agricultural Advances	
25-7-11	Estimate. To the Board. The Collector states that he had advanced St. Pag. 14,665-28-38 for maramut repairs and St. Pag. 11,011-15-58 for cultivation purposes. He solicits the sanction of the Board by including these charges in a formal estimate.	32-7

	Arrack	
14-10-11	Renting—Dispute. To the Board. A few persons manufactured arrack without the permission of the renters thus causing a great loss to the Circar. In spite of a notification to the contrary they persisted in doing it. The Collector, however, confined them and brought them to reason. A compromise was agreed upon in which the unauthorised manufacture and sale of arrack were stopped and the dispute between the renters and others was also put an end to.	38-42

	Cardamom Hills	
23-11-11	Arzee from the renter. To the Resident, Travancore. As the gardens from which the renter complains that the produce has been taken, appear to have been always considered within the limits of his farm, the Collector requests him to issue such instructions as he may think necessary to prevent similar acts occurring hereafter; otherwise the loss to the Circar, must inevitably be very considerable.	43

	Currency	
28-11-11	Coins in circulation.	43-4
	To the Mint Committee.	
	As the new coins have been issued for circulation only recently, the Collector does not think that there should be further change in the circulation of coins.	
	Permanent Settlement	
28-11-11	Maniam lands.	44-7
	To the Board.	
	1. In most of the villages of this district a maniam is granted to three descriptions of people who come under the denomination of cawalgars, totis and tandels.	
	2. The duties of a cawalgar have always been considered to watch over the crops on the ground, to guard them when reaped and be present at the thrashing and measuring. The produce is then delivered over to his charge, after which whatever loss may be sustained, he is considered to be accountable for it. He must also protect the village to which he belongs and should any of the inhabitants be robbed, he is obliged to make good from his own maniam lands the value of whatever articles may have been stolen, unless he can deliver up the offenders to justice in which case he is absolved from all responsibility.	
	3. A toti is required to convey olais or letters to and from villages, to watch the different tanks when full and give immediate notice of any bursting in the tank bunds and to render all assistance to prevent any damages that may be caused by the breaches in the tank bunds. He is also to see to the proper distribution of water for irrigation purposes.	
	4. A tandel is one who makes collections from the ryots of any balances outstanding against them.

	On the surveyors reporting themselves sufficiently recovered to undertake the duty of surveying proposed by him, the Judge will be duly intimated of the fact.

	Season Report	
16-12-11	Tahsildars' reports.	54
	To the Magistrate, Madura.	
	1. The Collector entertains the most serious apprehensions of a very considerable failure in the cultivation, throughout the whole district, from the reports sent by the different Tahsildars.	

Date.	Abstract.	Page number.
	Season Report—*cont.* 2. Owing to the vast numbers of people who have perished from the effects of the fever, the extent of cultivation in this year has been less than in almost any before. Such land as has been cultivated is now dying for want of water and unless a few showers fall speedily nearly the whole must be destroyed.	
9-1-12	**Military Supplies** Grains. To the Board. The Collector requests sanction for the purchase of grains as the season is favourable for stocking them for the use of the detachments that may be passing through the district.	54-5
14-1-12	**Accounts** Transmission. To the Board.	55-7

24-2-12	**Jamabandi Report** F. 1218. To the Board. The last triennial lease having expired, the Collector forwards his annual jamabandi report. The present settlement amounts to St. Pag. 51,076-9-29. Though the difference between the present settlement and the previous one (St. Pag. 63,317-3-19) is great, considering all the circumstances due to the high mortality from the recent epidemic fever, the present settlement appears to be as satisfactory as it could be.	61-9
25-2-12	**Lottery Prize** To the Accountant-General. The Collector transmits a voucher for the renewal of a ticket which had drawn a prize of Pag. 20.	70
29-2-12	**Tobacco** Duties on. To the Board. The Collector examines the accounts of the chowkis. The duties which have been levied in the Sivaganga Zamindari have hitherto proved very trifling and as there are several large villages in that zamindari, the Collector recommends the establishment of an additional chowki at the village of Partipanoor.	70-1

	Settlement	
1-3-12	For 1812—Proposals. To the Board. 1. The Collector states that an annual settlement is far better than one for a longer period, especially after the outbreak of the dreadful fever which carried away several villagers and reduced the productive capacity of the district as a whole. 2. He states that there is a tendency to concealed cultivation among the nataumcars and naut carnams and that he proposes to form the settlement on the actual cultivation by measurement. He therefore requests sanction of the Board for measuring the different villages. The expenses for this work will amount to St. Pag. 651-23-14 and the Collector considers that this expenditure would be fully justified by the advantages accruing.	72-7
	Survey	
14-3-12	Commencement of. To the Resident, Tanjore.	77-8
	Ramnad	
28-3-12	Succession. To the Board. The Collector recommends that the adopted child of the late Rani be nominated as the proper successor to the zamindari.	78-9

	Ramnad	
7-6-12	Succession—Further report. To the Board. On a closer investigation into the matter and after ascertaining the views of the leading people, the Collector states that those very people who supported the claims of the adopted boy during the lifetime of the late Ranee now oppose his claims and desire that a descendant of the Sethupathi family should be invested with the proprietorship of the zamindari. They therefore recommend the late Sethupathy's daughter for the position of Ranee.	82-5
	Flogging	
11-6-12	Cultivator—Petition from the Tahsildar of Anaiyur. To the Magistrate, Ramnad. The Collector states that cultivation will suffer and also the Government revenue diminish if the cultivators and ryots are punished with a rattan.	85-6
	Cardamom Hills	
10-7-12	Renting—Ff. 1217-19. To the Judge of Ramnad. The renter of the cardamom hills alleges that he has suffered a loss on account of the Travancoreans and has become a defaulter. 12-7-12	To the Board. The Collector proposes to establish nine additional chowkis, making a total of 26, which number will be sufficient to embrace every principal town and road in the district.	89-90

	Salt Establishment	
1-8-12	Estimates. To the Board. The Collector recommends an increase in the salt establishment and also an increase in the pay of the salt servants. He justifies this increase on the large profits derived from this monopoly.	94-6

	Famine	
26-9-12	For 1812. To the Board. 1. Since July 1811 scarcely a drop of rain has fallen and the distress which has been occasioned by such a failure will be best shown by the accompanying extracts from the arzees of different Tahsildars. 2. Many inhabitants of the district have quitted it; many have also perished from absolute want and parents in innumerable instances seek to part with their children as the only means of perserving their lives. 3. The Collector therefore recommends to the Board to hold forth encouragement to those who are prepared to import grain for the use of the public.	100-2

The cultivation of the district has been much restricted owing to the death of nearly 27,930 men from the dreadful epidemic fever. 3. The people in these districts depend largely for their cultivation upon regular showers, unlike the people of Tanjore and Trichinopoly districts. 4. The zamindari estates have been settled for St. Pag. 61,457-18-13 and the pollams of Dindigul, Manapparai and Madura for St. Pag. 2,58,993-17-76. The hill rents of Dindigul amount to St. Pag. 5,375-34-7 being an increase of St. Pag. 218-8-4 over that of f. 1220. 5. The gross collections of the sayer chowkis as well as the gross collections at the salt pans in Sivaganga and Ramnad amount to St. Pag. 50,648-1-27 exceeding those of the previous years by St. Pag. 8,820-3-12. 6. The rent for the arrack farms amounts to St. Pag. 7,870-39-23 which exceeds that of f. 1220 by St. Pag. 2,713-18-68. 7. The revenue derived from stamp paper amounts to St. Pag. 2,368-28-18 making a total gross revenue of the districts of St. Pag. 4,70,667-21-62.	118-23

	Cotton Cultivation	
23–12–12	Collector's remarks. To the Board. The Collector forwards his replies to the several queries of the Board regarding the extent of cultivation, the amount of export, the nature of the soil required for the cultivation etc., of cotton in his district.	145–50
	Tentage	
14–2–13	Objections to stoppage. The Collector objects to the stopping of the tent allowance as he will experience great inconvenience during his tour if he does not make use of the tents. He states that in several villages there are not suitable places for resting and so the use of the tents is essential. He therefore requests the drawal of the tent allowance as usual.	150–3
	Roads	
14–2–13	Construction and maintenance—Report. To the Board. 1. Through the Madura district there is only one great road, of any consequence and that is the one which leads from Trichinopoly to Palamcottah. During the dry weather it is as good as most roads, but during the monsoon, from its being intersected with numerous tanks, it is in many places bad. It is desirable to remedy this but the labour and expense involved will be great. 2. During the management of Messrs. Hurdis and Parish, the roads were marked out by trees planted on each side. This has been of great use particularly in preventing the inhabitants from ploughing parts of it as they were wont to do, but nothing further appears to have been done. 3. The Collector proposes to utilize convict labour profitably in repairing and deepening tanks and watercourses. But he does not recommend the use of convict labour in the construction and maintenance of roads. 4. In Dindigul the roads are in the same condition as those in Madura. 5. Near Kovilpatti there is a small though deep river, which from its being near the hills, frequently comes down and prevents the tappal and passengers for some hours from crossing. The Collector therefore recommends the building of a bridge at that spot.	153–6
	Sarishtadar	
–2–13	Pay. To the Board. 1. The Collector reports that his subordinates are under paid. Under the orders of the Board the previous Collector discharged the then sarishtadar who was drawing Pag. 80 per month. Considerable inconvenience has been caused in consequence as he was a man well acquainted with his business with a personality which commanded respect amongst the subordinates of the cutcherry. 2. The Collector, while stating that the highest pay now paid to a servant in his office is Pag. 30 a month, solicits the sanction of the Board for appointing a sarishtadar on a salary of Pag. 60 a month.	156–9

28-2-13	Zamindar's investiture. To the Board. The young zamindar was placed in possession of the estate. Thiagarajah Pillai, the minister of the late Rani, objects to handing over the ring and other insignia of the office to the zamindar and insists upon his continuing to draw the allowance as the minister. The minister and the young zamindar have never been on good terms. The Collector has therefore taken over the ring and the other articles and solicits the further orders of the Board on the matter.	159-60
	Religious Ceremonies	
9-4-13	Minakshi pagoda. To the Board. As the fever still continues in these districts, several respectable natives have requested the Collector to arrange for the performance of "Ashtabandanum and Cumbhabishakam" ceremonies. The Collector requests sanction for contributing partly towards the expenses.	162
	Cardamom Hills	
5-4-13	Dispute—Enquiry and report. To the Board. 1. When the gardens were few in number and the produce trifling, no claim was made by the Travancoreans but since the Company has taken the trouble to improve them at a large expense, the Travancoreans put forward claims in the hope of absorbing all the benefit from the management of the Circar. 2. The Collector reports that the Terkupariar river marks the boundary of the two countries and that the cardamom gardens should be considered as attached to his district exclusively.	162-9
	Petitions	
12-4-13	Use of stamp paper. To the Board. The Collector recommends that all petitions sent to the Presidency should be on stamp papers and that they should be sent through the Collector.	169-70
	Betel	
12-4-13	Renting of. To the Board. From the number of people who sell betel, the Collector thinks that large quantities must be smuggled and recommends that this article may be rented monthly, which will bring in a considerable increase in the revenue.	170-2
	Salt Establishment	
13-4-13	Fraud. To the Board. The Collector forwards a statement of salt servants who have been confined in prison for committing frauds.	172-7
	Salt Rawanas	
4-5-13	Indent. To the Board.	178

Date.	Abstract.	Page number.
	Cardamom Hills	
10-5-13	Renter's complaint—Investigation.	178-84

To the Board.

1. The renter of the Cardamom Hills has made several representations accompanied with many depositions regarding the conduct of the Travancoreans in taking the produce of the gardens. The renter was directed to collect what cardamoms he could until a termination was put to the dispute.
2. In f. 1217 Allamail Chetty took the rent of the Cardamom Hills for three years, viz.,

F.	C.Ch.
1217	8,000
1218	9,000
1219	10,000

3. At the latter end of 1808, i.e., in the middle of f. 1218, there was a balance against him of C.Ch. 4,000 for f. 1217 and as he appeared to wish to evade the fulfilment of his contract, under the pretence that the Travancoreans had plundered the gardens—though it was well known that he had collected a quantity of cardamoms—the Hills were assumed in 1808.
4. It is difficult to ascertain the exact amount of cardamoms plundered by the Travancoreans. The renter's claim for C.Ch. 22,400 on that account is too ridiculous to be listened to. He acknowledges having collected 1,402 tolams of cardamoms, and the greatest quantity ever known to have been previously gathered in one year was about 1,500. The whole of his losses by the Travancoreans, may be estimated at 400 or 500 tolams and by the rains 600 or 700 tolams, the value of which would be—

	C.Ch.
Ch. 9 per tolam	10,800
Deduct gardeners share at Ch. 4 per tolam ..	4,800
Balance in favour of the renter	6,000

5. The Collector leaves it to the Board to decide what concession should be shown to the cardamom renter.

	Wild Elephants	
18-5-13	To the Board.	184-6

The Collector forwards a report regarding the damage caused by the mischief of the wild elephants stating that whole paddy fields were laid waste in one single night.

	Military Supplies	
28-5-13	Sheep.	186-8

To the Assistant Commissary General, Seringapatam.

The Collector forwards an account of things furnished to His Majesty's 80th Rt. during its tour in the district.

	Decennial Settlement	
25-5-13	F. 1222.	188-99

To the Board.

1. The Collector forwards his settlement report for f. 1222 for Dindigul and other districts under him.
2. *Dindigul.*

He reports that great ravages were made by the dreadful fever and that the country was greatly depopulated. He estimates the loss of nearly one-third of the population as a consequence of the epidemic.

Date.	Abstract.	Page number.

Decennial Settlement—*cont.*

3. He introduced the decennial renting system with such modifications as seemed necessary to him but he clearly makes the Board aware of the futility of making any collections for the present. He proposes to collect the revenue as follows :—

	St. Pag. f. c.
1st year	53,130—39— 6
2nd ,, ...	55,300— 0— 0
3rd ,, ...	56,900— 0— 0
4th ,, ...	58,300— 0— 0
5th ,, ...	60,000— 0— 0
6th ,, ...	62,000— 0— 0
7th ,, ...	63,000— 0— 0
8th ,, ...	64,000— 0— 0
9th ,, ...	65,953—37—16
10th ,, ...	65,953—37—16

4. The Collector says that it will not be possible to introduce a permanent settlement before this period is over for there are not sufficient cultivators available.

5. In support of his proposal the Collector states that the standard of collections he has now fixed, viz., St. Pag. 65,953-37-16 is greater than that of the average of the previous seven years, i.e., St. Pag. 63,567-23-38.

6. He states that he will settle Madura also in accordance with this plan from the next fasli as he has no time to look into the matter now.

Jurisdiction

15-6-13 Punishments. 199-200

To the Assistant Commissary General, Seringapatam.

The Collector states that Appoo Pillai does not belong to his department and that he is unable to punish him. But he requests him to punish Appoo Pillai himself by imposing a fine with an admonition.

Petition

21-6-13 Nur Mahomed. 200-1

To the Board.

The Collector has no objection whatever to the petition of Nur Mahomed being granted.

Exports and Imports

21-6-13 Decrease—Cause explained. 201-2

To the Board.

Salt

23-6-13 Supply during rainy weather. 202-3

To the Board.

1. The Collector states that during the last monsoon, people suffered considerably in the fort and neighbourhood of Madura from want of salt, as owing to the rains the merchants were unable to bring the regular supply to the market.

2. The Collector therefore recommends that a quantity of salt should be kept in stock and issued then and there.

3. The establishment required to dispose of the salt, would consist of one conicopoly at Pag. 2, one measuring man at Pag. 1½ and one peon at Pag. 1 each per mensem.

To the Board. 1. *Dindigul.* A decennial lease has been conducted in Dindigul and the inhabitants had with very few exceptions consented to take it for that term of years. 2. *Madura.* The Collector strongly recommends that the decennial lease should also be concluded in Madura.	206-8
	Collector's Cutcherry	
27-8-13	To the Board. The old building in which the Collector was holding his cutcherry till now has gone completely out of repair. The Collector recommends the construction of a cutcherry at once instead of repairing the old one.	208-9
	Settlement	
7-9-13	F. 1222. To the Board. 1. The settlement for f. 1222 amounts to St. Pag. 54,112-35-8 being an increase of St. Pag. 10,449-42-65 on that for f. 1221. 2. The jama and kistbandi of the six estates in possession of zamindars amount to St. Pag. 17,844-25-70 forming a total for the 35 estates of St. Pag. 71,957-15-78. 3. The jama and kistbandi of the whole of the pollams amount to St. Pag. 2,58,993-17-76. 4. The jama and kistbandi of the Cardamom Hills amount to St. Pag. 4,303-1-29. As the rent of the Hills expired with f. 1222, the Collector requests the Board to give early instructions as to whether the Hills are to be considered as attached to Dindigul or Travancore. 5. The gross collections of salt and sayer exceed those of any former years, the total being St. Pag. 60,416-22-6 exceeding last fasli by St. Pag. 9,768-20-59.	209-13

19-3-14	To the Postmaster, Trichinopoly. One of the tappal runners was stopped near the Palar river by some people, who after beating him and opening some of the packets allowed him to depart, but on a reference to the list forwarded, there is one packet deficient. 26-3-14	Boundary dispute. To the Board. 1. 	Agricultural Advances	
6-6-14	Estimate. To the Board. Owing to the severe losses which the inhabitants have sustained in their cattle during the present fasli and to the extreme drought of the year, the Collector anticipates that a greater sum than usual will be required for taccavi advances.	268
	Ryotwari Settlement	
14-6-14	Introduction recommended. To the Board. 1. The Collector recommends the immediate introduction of the ryotwari settlement in the place of the last decennial renting and reports that the inhabitants also desire the immediate introduction of the ryotwari settlement. Because— (*a*) the lowering of the teerwah will encourage cultivation on a larger scale ; (*b*) however good the season, the Circar could only receive whatever the lease should be given for, which was fixed at a low rate calculating on bad and good seasons ; (*c*) should the rent be continued for ten years, the renters would be always calling upon the lower inhabitants for money, on pretence that kists were due and thus appropriate the money to themselves. 2. There is a great difference in the assessment of the punjah lands of two villages, one in Dindigul and the other in Madura. The Collector states that where the rent on a particular land is heavy the ryot deserts it and takes to cultivating land with a low assessment. Such a course will in the end cause great loss of revenue and the cultivator must desert his country, "for where the rate of assessment becomes so oppressive as not to leave the ryot a sufficient share of the produce for the maintenance of his family and the expenses of cultivation, he must at length desert his land." 3. The Collector desires that there should be a reclassification and resurveying of the lands especially as the inhabitants are very desirous of such a measure.	269-76

	Zamindari Kists	
14-6-14	To the Board. The Collector reports that he has received petitions from several zamindars requesting time for the payment of their kists and recommends to the Board that as they had to face bad seasons successively for three years, this indulgence may be granted to them.	277

	Season Report	
28-6-14	A severe drought. To the Board. 1. The Collector reports that the country has been parched up owing to a very severe drought and that it was most severe in the taluk of Thooroomboor. 2. In view of this the zamindaris have been much affected and the Collector thinks that unless time is given them it will not be possible to collect any kists from them.	280-2
	Ramnad	
28-6-14	Arrears of revenue. To the Board. The Collector explains to the Board the reasons for which he did not assume the zamindari for the large balance in the payment of kists and recommends to the Board that the present Rani who is aware of the consequences of non-payment is deserving of some indulgence in the matter of time as the whole of the zamindari was under a severe drought. He assures the Board that if the Rani does not pay up the arrears before the end of the fasli, the zamindari will then be assumed.	283-6

	Ramnad Zamindari	
23-7-14	Assumed. To the Board. 1. The Zamindar of Ramnad not having discharged the balance of above Pag. 50,000 before the end of the fasli, the Collector has sent people to assume the country. 2. "The cause of the zamindar being unable to raise the amount, is to be attributed to a report, which has been in circulation that orders have been issued to the Court of Appeal to restore the country to the late zamindar, until the final award has been made. If such be the case it is to be regretted, as the confusion which frequent changes must create, must I am sure be too evident to need being pointed out."	296-7

	Customs Duty	
14-10-14	Turmeric and garlic. To the Board. The Collector objects to imposing a duty on articles of trade other than turmeric and garlic because a duty on other articles will not bring in much revenue to Government.	307-9
	Moyenzábitah	
19-10-14	F. 1224—Estimate. To the Board.	310-3
	Settlement Report	
30-10-14	For f. 1223. To the Board. 1. The Collector forwards his jamma and kistbandi statement for f. 1223 to the Board. 2. Though the total extent of land cultivated in Dindigul and Madura exceeds that of f. 1222, yet the amount of the settlement falls short in the sum of St. Pag. 14,311-29-23 which has been occasioned chiefly by the reductions on account of taccavi and partly by the nanjah being less than that of the preceding year. 3. *Madura.* The Collector was guided entirely by the accounts in the matter of granting remission and the total amount of the remission amounted to St. Pag. 13,436-37-38. 4. As a result of the introduction of the ryotwari system into Madura the total settlement of the zillah deducting taccavi amounts to St. Pag. 70,629-39-58 showing a difference of less than St. Pag. 16,435-9-56 on the settlement of the previous fasli. 5. In some of the taluks a tax called Panthee Cawel is collected. This was a tax which was formerly levied by the poligars in an arbitrary manner on the villagers "as the price of their desisting from plundering their villages." This tax was felt to be very heavy by many of the inhabitants and the Collector was induced to remit a sum of St. Pag. 345-42-77. The Collector strongly recommends the discontinuance of this tax as it is felt to be very obnoxious. 6. The Collector reports that much of cultivable land is lying waste because such land is owned by Brahmins on mirasi tenure who are not willing to bring the land under cultivation. If this course is to be adopted by the Brahmins, the Circar will lose much of the revenue to which it is entitled and therefore the Collector solicits the orders of the Board as to the treatment he should give those mirasidars who refuse to bring land under cultivation and allow good lands to lie fallow. 7. The Collector reports that it is not possible to estimate correctly the population of the district as many deaths have occurred. A large number of cattle have also perished owing to the severe drought. 8. The number of pattas distributed by the Collector was 26,231. 9. *Dindigul.* This is slightly better than Madura and the amount of the taccavi is only St. Pag. 1,721-27-49. The settlement exceeds that of f. 1222 in the sum of St. Pag. 2,123-25-33. The ryotwari system was introduced in this district also and during the settlement 12,208 pattas were distributed.	313-33

Settlement Report—*cont.*

10. During his tour the Collector observed several tanks and watercourses in a state of disrepair and consequently much of the land lying uncultivated. The Collector therefore advanced a sum of St. Pag. 5,664–36–65 for their repair.

11. The jamma and kistbandi of the six estates in possession of the zamindaris amount to St. Pag. 17,844–25–70 and the total for the whole of the 35 estates St. Pag. 74,080–41–31. The settlement of all the zamindaris amounts to St. Pag. 2,58,993–17–76. The jamma and kistbandi of the Hills amount to St. Pag. 1,030–13–51.

12. During f. 1223 the Cardamom Hills were kept under aumani and the total quantity of cardamom collected was Can. 50–2–7¾ exclusive of other articles.

13. The sayer and salt collections amounted to St. Pag. 73,739–44–26 which were the highest ever realized before. The increase in the sayer collections was due to the duties on betel and tobacco.

14. The collections under abkari amounted to St. Pag. 6,810–39–28.

15. The Collector concludes his report by stating that the jamma of the whole of the districts under his charge amounts to St. Pag. 4,87,395–28–0 being less than fasli 1222 by St. Pag. 7,337–7–72, making a total decrease of only St. Pag. 4,688–9–29 after deducting the supposed amount of cardamoms and after discharging the inhabitants' share, etc.

Irrigation Repairs

31–10–14 Reports. 333–5

17–11–14 To the Board.

Customs Tariffs

30–11–14 To the Board. 335–9

1. The Collector forwards his report after a detailed examination of the sayer accounts and proposes the introduction of tariffs upon certain articles.

2. The Collector recommends the levying of duties on cloths and drugs, the manufacture and produce of these districts only, of which alone the sayer revenue is composed. All articles, the manufacture and produce of other districts, must necessarily previous to their entering this district have paid the general inland duty.

3. Tobacco, the growth of the Dindigul province, forms one of the greatest sources of this branch of revenue and the chief export of this collectorate, the duty to be levied on which has already been provided for in Regulation VI of 1812.

4. With regard to the levying of a duty on the rape seed, the Collector thinks that it might be easily effected. It is generally estimated that 10 measures of seed will produce 2 measures of oil; if therefore a duty of Pag. 3¼ be collected on a garce of seed it will be about equivalent to the 5 per cent. duty levied on the oil.

5. The Collector does not propose to reduce the customs establishment though the duties on several petty articles have been abolished.

	Earth Salt	
31-1-10	Manufacture prohibited. To the Board. Amritalingam, the saltpetre contractor, has offered to the Commercial Resident at Nagore to give Pag. 300 for the exclusive privilege of manufacturing earth salt. This has been objected to because the "manufacture of earth salt cannot be permitted to exist without prejudice to the sea salt monopoly."	13-4
	Revenue Arrears	
1-2-10	Report. To the Board. "The produce of the dry grain has suffered material injury from the violence of the monsoon." A sum of St. Pag. 2,000 was paid to the son of the late poligar in accordance with the orders of Government for the marriage of his brother's children. The Collector forwards a statement showing the daily allowance paid to the different members of the family. Considering that the allowance of one Veeroy fanam was fixed for the poligar's son when he was quite a boy the Collector recommends that it may be raised to a rupee a day. His mother, the widow of the late poligar, may also be paid the same increased allowance.	20-1

	Revenue Arrears	
9-2-10	Report. To the Board. 1. There are no arrears on account of f. 1217. The arrears for ff. 1218 and 1219 will be collected shortly. They are accounted for as follows. 2. A sum of St. Pag. 509 is due from the Poligar of Sundiyoor which formed one of the assumed palayams but which was restored to the poligar according to the orders of Government. The assessment of the palayam is very high and has to be reduced to the same rate as that which prevails in the neighbouring estates. 3. The renters of farms and licences in Ramnad and Sivaganga are unable to pay their dues because the inhabitants refuse to pay the demands on account of toddy, etc., "in consequence of a decision of the late Judge and Magistrate, Mr. Gregory, that the regulations did not provide for such a rent." These taxes are being collected under amani. 4. The arrears due by the renter of cardamoms can be realized only if the dispute between him and the Raja of Travancore is settled.	22-4

The Collector therefore considers that she is entitled to receive the property of the deceased poligar which is now in the custody of the Town Major of Fort St. George.	26

24-2-12	For f. 1220. To the Board. 1. The land revenue of Dindigul was settled at St. Pag. 51,076-9-29, being less than the preceding triennial lease by St. Pag. 23,200-42-9. This difference must be ascribed to the great mortality and the heavy rains that fell towards the end of the year. In Madura it amounted to St. Pag. 140,815-5-43. The palaiyams in both the districts were separately settled at St. Pag. 258,993-17-76. 2. The hill products were rented for St. Pag. 5,157-25-73. 3. Of the extra sources of revenue, the sayer yielded St. Pag. 20,798-0-32; salt, St. Pag. 12,657-4-31; stamps, St. Pag. 2,359-19-33; and arrack, St. Pag. 5,157-20-35, as far as could be ascertained.	42-8

	Annual Settlement	
1-3-12	Proposals for f. 1221. To the Board. 1. *Madura.* As it is highly impolitic to rent out the district for a long period after the late mortality and failure of the rains, the acting Collector proposes to settle it for one year only and that on the actual cultivation, so as to ascertain its full extent and to detect the malpractices of village servants. 2. *Dindigul.* He recommends the adoption of the same mode of settlement in this district also. But before doing so, he considers it necessary to improve the classification of the soil and to proportion the assessment to the actual produce of the land, and therefore requests permission to entertain an establishment to resurvey the villages. 3. He estimates the gross revenue at St. Pag. 396,049-32-73.	53-7

	Cotton Cultivation	
23-12-12	To the Board	108-11
	1. The soil of the district is not generally suited to the growth of cotton. Nevertheless, an extent of 44,272 cawnis and 3¾ acres might be brought under cotton cultivation and assessed according to the description of the land.	
	2. Of the two kinds of cotton produced in this country, the Naudan is stronger, but it so impoverishes the ground as to make it unfit for cultivation for the next six or seven years. The Bourbon cotton is not even known to the inhabitants.	
	3. The cultivation commences in the months of April and June. The ground is ploughed several times and well manured, before the seed is sown, soaked in water mixed with cow-dung. The plants are frequently hoed of the weeds and plucked from February to April. The expense of cultivation may be averaged from Pag. 2½ to 3 per cawny. The best mode of encouraging and extending it is to make advances to ryots and after the cotton is gathered, to receive it at the then selling price.	
	4. The produce is one of the chief articles of export from the district and can be procured from Pag. 22 to 25 per candy in ordinary seasons.	
	Ramnad	
23-12-12	Adoption.	112-47
	To the Board.	
	It appears from enquiry that the adopted son is not of the age he wishes to make himself out to be and that he attains his majority on his next birthday. The Collector therefore proposes delaying the restoration of the zamindari till that period.

	Decennial Lease	
25-5-13	Introduction.	118–24
	To the Board.	
	1. *Dindigul.*	
	On examining the different averages of different years, the average of the seven years commencing with f. 1214 and ending with f. 1220 appears to be a fair one for the standard rent of the proposed decennial lease to be finally confirmed as the permanent settlement of the district. But it is impracticable to introduce this permanent rent in the early years of the lease, as it would upset the very system proposed by Government, in the present state of the country, depopulated as it is by the late virulent fever. The Collector, therefore, suggests the gradual realization of this rent in the ninth year of the lease, fixing for the intermediate periods such sums as the inhabitants can pay with ease. He, further, observes that a rent introduced on such liberal grounds would enable the ryots to increase their stock and cultivation in such proportion in the early years of the lease as to ensure to Government what may be ultimately fixed in permanency.	
	2. *Madura.*	
	He proposes the postponement of the settlement of this country till the ensuing year, partly on account of the advanced stage of the year, but chiefly on account of the fever which has been very bad since the last few months.	
	Cardamom Farm	
10-5-13	Interference of the Travancore people.	124–52
	To the Board.	
	1. The Collector reports the interference of the people of Travancore in the collection of the cardamom produce for the current year.	
	2. He considers as ridiculous the claim of Alamelu Chetty for a remission of Ch. 22,400 on account of cardamoms plundered by the Travancore people ; for, the sum is too large to be realized in any one season, independent of its being untenable according to the agreement he executed.

	Dindigul Mosque	
21–6–13	Management.	172–8
	To the Board.	
	The Collector does not see any objection to recognizing the authority of Meer Mahomed in the disbursement of the allowance granted to the mosque at Dindigul where his mother was buried, as the parties in charge of it did not hesitate to acknowledge him as their master, when he came after a lapse of many years during which he took no interest in its management.
